Porterfield,2012-12-06 Who are we What are we How do we fit into the world Or into the universe These and other questions pertaining to ourselves and our environment are as compelling to us today as they were to our primitive ancestors Throughout our history we have developed paradigms of thought that have attempted to answer these questions each conceptual framework being particularly relevant to its age We are in the twentieth century witnessing a complete reorganization of our thinking We are now with the aid of technology able to bring together both ancient and new patterns of thought and to observe the emergence of a kaleidoscopic world view that is uniting the once dissonant theories of philosophy religion and science This book sketches an historical picture of three world views that have shaped our ideas about ourselves These conceptual formats that have so influenced us are not mutually exclusive and are present in all of us simultaneously although to varying degrees depending upon our individual biases **Earth Under Fire** Paul A.
