

A large, circular fluorescence micrograph dominates the upper half of the book cover. It shows a cluster of cells with bright green cytoplasm and distinct red/pink nuclei. The cells are arranged in a somewhat organized, honeycomb-like pattern. The background of the cover is dark, with faint, larger-scale patterns of green and red/pink, suggesting a broader view of the same or related cellular structures. A thin white line curves across the middle of the cover, separating the micrograph from the title area.
