

Behind the Imagery of Lorca's Romance Sonambulo

Verde que te quiero verde. Green, how I want you green. Thus begins the powerful scene in Lorca's poem Romance Sonambulo.

First-time readers would see unfolding for them the passion of a man longing for his "gypsy maiden by the balcony", with the "green flesh, green hair and eyes of cold silver". The poem, however, remains strangely ambivalent as to its exact interpretation—there is no definitive word that captures the central idea behind the Romance Sonambulo. Those who would give a cursory glance at the author's life would probably be captivated by his death at the hands of the Falangists during the Spanish Civil War. This death by Federico Lorca, itself, would represent the martyrdom of many an artist and poet and the loss of Spain's youth to war; it would certainly attach to Romance Sonambulo the value of a war tragedy.

This interpretation, however, is anachronistic. The poem, written in the general work *Primero Romancero Gitano* (Gypsy Ballads), was published in 1927. Though Lorca's work may seem prophetic in its portrayal to those who would interpret it as about a war that exploded in the 1930s, most certainly this was not the original intent of the author. It may also be that his intention was that it not be read as something with a central idea or tale, but a vista of images revolving around a central, tragic theme within his own life.

Federico Garcia Lorca was Granadan by birth, and in Andalusia he was first exposed to the literary and artistic circles of Spain's time, among them Salvador Dali and Luis Bunuel. At an early age he was already experimenting on artistic concepts that went against the norm, his first play *El maleficio de la mariposa* depicting the love of a cockroach for a butterfly. In 1927 he was part of the formal meeting of the Generation of '27, celebrating the avant-garde and commemorating the tricentenary death of Luis Gongora. The latter's style of *culteranismo*, which gave words and phrases multiple meanings, was one of the primary contributors to the avant-garde movement in 1920's Spain, a style which purposefully went against structure and norm.

At the same time, during the late 1920's Lorca was depressed, conflicted with his homosexuality and was intimately involved with the painter Salvador Dali. In 1927, it grew worse when, following the success of his *Primer Romancero Gitano*, he had to lead the double life of a successful, happy artist and a frustrated, anguished man. His depression led to estrangement with close friends, and the ending of his relationship with Dali in 1929, after he suspected the newly made film by the latter, *Andalusian Dog*, was an attack on him. It was only later, after a short stay in America from 1929 to 1930, and after a further fruitful period in pre-war Spain, did Lorca meet with tragedy.

Spain was embroiled in a war between Republicans and Nationalists, Communists and Fascists, and in August 1936, the Fascist Falange executed him as a Commu

Carlos Rojas,2010-11-01 **García Lorca Review** ,1977 **South Atlantic Review** ,1984 **The Tragic Myth** Edward F. Stanton,1978 With literature music constituted the most important activity of poet and playwright Federico Garcia Lorca s life The two arts were closely related to each other throughout his career As a child Lorca imbibed traditional Andalusian songs from the lips of the family maids whom he would remember with affection years later At a very early age he began to study piano and during his adolescence music and poetry competed for primacy among his interests His first book was dedicated to his music teacher who instilled in him a love for the world of art and creation In part I of this study Edward F Stanton examines Lorca s theoretical and practical approach to cante jondo the traditional music of Andalusia as seen in his lectures on the subject and in the 1922 concurso In part II he searches for direct and far more important indirect echoes of this music in his work Part III explores the mythic quality of Lorca s art in relation to cante jondo Throughout Stanton illuminates a new dimension of the poet s work **Símbolo y simbología en la obra de Federico García Lorca** Manuel Antonio Arango L.,1995 **Social Sciences & Humanities Index** ,1969 The Colours the Words Cast Christopher Butler,Anne-Marie Simon-Vandenberg,2025-08-29 This book examines the use of colour terms in the poetry of Dylan Thomas adopting a primarily linguistic and stylistic rather than literary approach Although critical studies of the poetry of Dylan Thomas abound systematic and detailed linguistic studies of his poems are relatively rare The authors main aim is to investigate in detail the use of colour terms and in particular to link this to the associations between colours and their connotative symbolic meanings which form the basis for what have been called colour metaphors They also provide a rich database of these associations which will be of use to researchers who may be interested in the use of colour terms in other texts whether literary or non literary This book will be of interest primarily to academics and advanced students in the field of linguistic stylistics **Another Music** John McCormick,2011-12-31 As the essays in this book attest in a time of specialization John McCormick chose diversification a choice determined by a life spent in many occupations and many countries After his five years in the U S Navy in the Second World War the academy beckoned by way of the G I Bill graduate training and a career in teaching Prosperity in the American university at the time meant setting up as a Wordsworth man a Keats man or a Dr Johnson man all chilling to the author He chose self exile in which he disguised himself as an Americanist saleable in Europe and lectured happily in comparative studies literature history and philosophy Thus the broad range of this volume both in subject matter and in the span of time it covers The essays are divided into three sections First are general and personal essays on a variety of topics followed by work on individual writers and third writings on criticism and theory A section on Santayana reflects his eight years of research for Santayana s biography The writings on Spain and toreo bullfighting result from another long held interest together with the author s attempt to alter some of the romantic nonsense about the running of the bulls in Pamplona too often the entire substance of what the general public knows about Spain McCormick has long been convinced that without knowledge of bullfighting the foreigner cannot comprehend arcane and

wonderful aspects of the Spanish character The coda Another Music is an old man's attempt to solve the mysterious algebra of how the world turns now and how the young appear to the aged While the volume is diverse in its range of writers from Whitman in America to Santayana in Europe taken as a collectivity these essays provide a sense of the grandeur as well as the decadent in twentieth century politics and aesthetics alike Written with the literary taste and political non conformity that still characterizes McCormick the volume is a treat for the specialist perhaps and for the generalist certainly
