categories used to assess the value and meaning of texts previously presumed to be devoid of both. It does so by bringing to the fore the operative premise of Francoist cultural politics wherein fictional works have the power to mould individual character and conduct. Narratives by Luisa Mar a Linares Concha, Linares Becerra, Carmen de Icaza and Mar a Mercedes Ortoll are thus examined in terms of the effects that they were expected to have on their readers and the constraints that such expectations placed on the works' production and reception. The result is a paradox while the study of women's bestselling novels is by definition a study of the constraints that shape them, careful reading reveals the limitations of those selfsame constraints. The present manual aims to establish this approach at an international level by assembling contributions that introduce its theoretical foundations, discuss connections with alternative approaches of text and discourse analysis, show the relevance of Discourse Traditions for the history of Romance languages and explore possibilities for future applications of the concept. **27000**

Although best known the world over for his masterpiece novel *Don Quixote de la Mancha* published in two parts in 1605 and 1615, the antics of the would-be knight errant and his simple squire only represent a fraction of the trials and tribulations both in the literary world and in society at large of this complex man: Poet, playwright, soldier, slave, satirist, novelist, political commentator and literary outsider. Cervantes achieved a minor miracle by becoming one of the rarest of things in the Early Modern world of letters: an international best seller during his lifetime with his great novel being translated into multiple languages before his death in 1616.
