Tenerife and la Gomera Christian Williams, **Global Governmentality** Wendy Larner, William Walters, 2004-08-02

Foucault's thoughts on governmentality have made a significant impact on the studies of power and governance in modern societies. However, most studies of governmentality confine themselves to the exploration of power within nation states. Global Governmentality extends Foucault's political thought towards international studies exploring the governance of the global, the international, the regional, and many other extra-domestic spaces. Combining historical and contemporary outlooks, this book offers innovative interdisciplinary explorations of such issues as international peacekeeping, refugees, political rationalities of security, and neoliberalism, the spatiality of globalization, the genealogy of development, and the ethical governance of corporate activity. At a time when many of the geopolitical and economic certainties which framed international affairs are in flux, Global Governmentality is suggestive of new territories and lines for international analysis. It will be of interest to students and researchers of both governmentality and international studies. **Education Outlook**

, 1892 **Shakespeare's Patterns of Self-knowledge** Rolf Soellner, 1972 The Renaissance evinced a strong interest in self-knowledge, and the theme is a persistent one in the moral and dramatic literature of the age. The ancient slogan *nosce teipsum* became a universal watchword of men schooled in the paramount importance of coming to know themselves. Shakespeare's abiding interest in the concept of self-knowledge shows itself in the dramatic patterns of his plays in images, ideas, themes, and character portrayals. The recurrence of such motifs as the search for the self and the dangers and rewards of finding oneself, as well as the prominence of such ideal or nearly ideal characters as Henry V, Duke Vincentio, and Prospero, testify to the powerful influence humanistic notions of self-knowledge exerted on Shakespeare as a writer and thinker. But his was a changing and developing art in a restless and dynamic age. Professor Soellner suggests that as much as Shakespeare's artistic development, which also affects his patterns of self-knowledge, is part of his natural growth into a mature and incomparable dramatist, it is yet analogous to the stylistic and philosophic changes that led from the Renaissance through Mannerism toward the Baroque. Mr. Soellner examines twelve plays in which self-knowledge, as the Renaissance understood it, figures prominently. Mindful that concepts of self-knowledge are not independent of cultural contexts and that the definitions in the moral literature of the time were notoriously imprecise and unscientific, he recognizes that the meaning of the term in Shakespeare's time must be acquired as Shakespeare acquired it, that is, contextually. Mr. Soellner distinguishes three points in Shakespeare's evolution: an early stage that culminates in the later histories and the romantic comedies, in which the dramatist reflected, sometimes almost schematically, the humanistic patterns of his time; a middle or interim phase that begins with *Julius Caesar* and includes both *Hamlet* and the problem comedies, in which Shakespeare experiences certain hesitations and entertains some doubts about the patterns accepted uncritically earlier; and the final period of the great tragedies and tragicomic romances, in which a growing awareness of the unpredictability of human nature leads to a dynamic synthesis in which what is the quintessence of humanism is fused with a full realization of the weakness of codification and a

profound sympathy for the human condition In the last of his great plays the tempests Mr Soellner find Shakespeare composed a brilliant finale in which are worked many of the patterns that he used in his earlier work The dream of The Tempest that man can control himself limit his power and even resign it voluntarily is totally humanistic and may be utopia But it is one of the happiest expectations of man and represents an irresistible affirmation of his potential greatness Rolf Soellner
