Fortress Conservation and International Accountability for Human Rights Violations against Batwa in Kahuzi-Biega National Park Colin Luoma, 2022-05-05 The Kahuzi Biega National Park PNKB in the Democratic Republic of the Congo presents an existential threat to the indigenous Batwa people For millennia Batwa occupied the forests surrounding Mount Kahuzi and Mount Biega utilizing traditional ecological knowledge and sustainable practices to foster one of the most biodiverse places on the planet The creation of the PNKB in the 1970s forced Batwa from their ancestral lands rendering them deeply impoverished landless dependent and culturally disconnected When they seek to return home and access their lands and resources they are subjected to extreme violence by park authorities who treat them as trespassers poachers and enemies of conservation This report situates the serious human rights violations suffered by Batwa in the PNKB within the broader global phenomenon of fortress conservation and analyses the respective roles and accountability of the park's core international partners Ongoing violence against Batwa in the PNKB is a stark reminder of the immense human and environmental costs associated with pursuing conservation policies that prevent indigenous peoples from owning governing accessing and benefiting from their territories and resources These policies are bolstered by donors global NGOs and international organizations which enable and tacitly uphold a violent and anti indigenous status quo in the PNKB and other protected areas Donors conservation organizations and other international partners of the PNKB have failed to adequately ensure that their support did not contribute to human rights violations committed against Batwa These international partners had explicit knowledge of unresolved human rights abuses committed by ecoguards as well as threats of imminent violence against Batwa communities living inside the park Yet they continued to equip fund and train ecoguards and actively promoted the increasing militarization of the PNKB This militarization has resulted in overly aggressive policing and military style actions by ecoguards often jointly with the Congolese Army who explicitly target criminalize and brutalize Batwa At the same time the park consistently fails to meet environmental expectations and objectives Thus the PNKB represents a clear case of how fortress conservation fails both people and the environment Regrettably it is not an isolated example of flawed conservation policy Instead it is indicative of the institutional shortcomings and systemic failures inherent in the dominant ways in which conservation is pursued by states and promoted by international conservation actors in the

Congo Basin and in other parts of the world **Women and Religion in the Ancient Near East and Asia** Nicole Maria Brisch, Fumi Karahashi, 2023-04-03 The recent years have seen an upswing in studies of women in the ancient Near East and related areas This volume which is the result of a Danish Japanese collaboration seeks to highlight women as actors within the sphere of the religious In ancient Mesopotamia and other ancient civilizations religious beliefs and practices permeated all aspects of society and for this reason it is not possible to completely dissociate religion from politics economy or literature Thus the goal is to shift the perspective by highlighting the different ways in which the agency of women can be traced in the historical and archaeological record This perspectival shift can be seen in studies of elite women who actively contributed to religious gift giving or participated in temple economies or through showing the limits of elite women s agency in relation to diplomatic marriages Additionally several contributions examine the roles of women as religious officials and the language worship or invocation of goddesses This volume does not aim at completeness but seeks to highlight points for further research and new perspectives **SOE: The Scientific Secrets** Fredric Boyce, Douglas Everett, 2011-11-08 The history of Special Operations Executive SOE seems to spring a never ending run of surprises and here are some more This book explores the mysterious world of the tools SOE used for their missions of subversion and sabotage An often grim reality is confronted that is more akin with the world of James Bond and Q s workshop than previously believed Written by two scientists one of whom served in the SOE and one who was tasked with clearing up after it was disbanded their insider knowledge presents a clear account of the way in which SOE s inventors worked From high explosive technology to chemical and biological devices from the techniques of air supply to incendiarism from camouflage to underwater warfare and from radio communications to weaponry SOE The Scientific Secrets is a revelation about the tools that allowed the murky world of spying and spies to operate during wartime *Early History of Soybeans and Soyfoods Worldwide (1024 BCE to 1899)* William Shurtleff; Akiko Aoyagi, The world s most comprehensive well documented and well illustrated book on this subject With extensive subject and geographical index 463 photographs and illustrations Free of charge in digital PDF format

Contract for the International Carriage of Goods by Road Chiara Tincani, 2022-08-31 This book discusses the intensification of international transport services as the consequence of an increasingly capillary economic integration In particular in some European countries such as Belgium the Rhine area of Germany and Denmark the application of the Geneva Convention on the carriage of goods from the case law point of view is even more thorough than that of national law Even though this is not the case for all countries the Geneva Convention is a core text both for the scientific debates on the issue and for commercial operators Therefore proposing an up to date reading of the Convention is of utmost importance from the practical point of view especially considering that thanks to the consistent application of the International Carriage of Goods by Road contract the Convention has become an essential prerequisite for the development of traffic In ten chapters this book reviews the Convention s structure and considers the case law approaches and trends of most countries belonging

Sketches of Ceylon and India Narayan Prasad, 2020-04-30 Sketches of Ceylon and India From the Travel Notes of a Russian is the English translation a long felt desideratum of the report originally written in Russian and published in 1878 by Professor Ivan Minayev on his first trip to Ceylon India and Nepal in 1874 75 Of the three foreign trips the first trip of Ivan Minayev to the East is particularly interesting for Orientalists This trip was important both for the scholar himself and for the development of Indology as a whole This report contains not only detailed information on archaeological discoveries and description of architectural and historical monuments but a spate of interesting observations and conclusions related to the daily life of the peoples inhabiting these countries Minayev's personal pieces of evidence of those distant times based on the stable academic foundation unlike various contemporary travelogues that abound in distorted judgments and biased observations are indeed very rare and hence one cannot overestimate their value
