

Statement of Purpose for MPA at USC SPPD

My desire to serve the public began when I was a child and was instilled in me by my parents and grandparents, who have always believed that anything they do should not only make our family better off, but our neighbors and community, as well. Their values influenced me as a young child, such that I always envisioned doing something that would have a positive impact on the livelihoods of many people. My grandfather was a freedom fighter recognized by the Indian Government for his selfless contributions during the liberation of India and then his work in improving the lives of people in general. My father was the principal of a high school and devoted his life after retirement in starting and running five rural schools in order to provide a good learning environment to children and adults in villages.

As I grew up, I was an eager apprentice, working hard to arm myself with fundamental knowledge in public and governance affairs. I participated in boot camps and volunteer programs providing community services to local neighborhoods and governments. Fortunately, in the year 1983 when I graduated from college, I won a National Urban Administration Support scholarship from the Indian Government and had a chance to study Political Science for one academic year at Jawaharlal Nehru University in New Delhi. I learned more about government and its systematic approach to addressing the needs of the public during this one year than I did in my entire educational history earlier. As a result, I became even more intrigued by public affairs, and my interest in a career in the field of public service grew.

While the community services projects I had completed earlier, during my school years, molded my upbringing, the community service projects I completed later and an internship at Swami Vivekanand Jankalyan Sansthan were my first practical experiences in public service. As an illustration, I am proud to have been part of the team that brought in to being the Ranchi Self-help Clean Water Distribution project, which offers an example of what a dedicated community of people can accomplish with a clear focus and a strong desire to improve their lives. I volunteered my time to welfare organizations because of the spiritual fulfillment that accompanies social service, and a concern for the welfare of those most in need throughout the world, peace, children, the environment, etc.

These projects inspired me to pursue numerous community-oriented endeavors during my professional career. This drive, and my interests in the environment and sustainable development encouraged me to seek community welfare oriented assignments; I knew that if a municipality with few resources could succeed, there was hope for many other towns and cities to pull together and renew their communities too. I have volunteered or otherwise provided my services to community welfare based industries and communities in Afghanistan, Armenia, Bangladesh, Canada, France, Ghana, Hong Kong, India, Italy, Kenya, Nepal, Saudi Arabia, Singapore, UAE, UK and US. I firmly believe now that people often are limited, not by their abilities, but by their vision. I have a vision for the future of many emerging and post-conflict torn communities.

This vision is to help guide communities to become a home for world-changing people and ideas, a place where people invest in the future, a land where cultural diversity is valued and reflected in their national identity, a great place to live, learn, work, do business, and raise families. I envision that the economic
