

Our commitment to voice

The goal of our Community Standards is to create a place for expression and give people a voice. Meta wants people to be able to talk openly about the issues that matter to them, whether through written comments, photos, music, or other artistic mediums, even if some may disagree or find them objectionable. In some cases, we allow content—which would otherwise go against our standards—if it's newsworthy and in the public interest. We do this only after weighing the public interest value against the risk of harm, and we look to international human rights standards to make these judgments. In other cases, we may remove content that uses ambiguous or implicit language when additional context allows us to reasonably understand that the content goes against our standards.

Our commitment to expression is paramount, but we recognize the internet creates new and increased opportunities for abuse. For these reasons, when we limit expression, we do it in service of one or more of the following values:

AUTHENTICITY

We want to make sure the content people see on Facebook is authentic. We believe that authenticity creates a better environment for sharing, and that's why we don't want people using Facebook to misrepresent who they are or what they're doing.

SAFETY

We're committed to making Facebook a safe place. We remove content that could contribute to a risk of harm to the physical security of persons. Content that threatens people has the potential to intimidate, exclude or silence others and isn't allowed on Facebook.

PRIVACY

We're committed to protecting personal privacy and information. Privacy gives people the freedom to be themselves, choose how and when to share on Facebook and connect more easily.

DIGNITY

We believe that all people are equal in dignity and rights. We expect that people will respect the dignity of others and not harass or degrade others.

Research Handbook on EU Media Law and Policy Parcu, Pier L., Brogi, Elda, 2021-09-21 This cutting edge Research Handbook presents a comprehensive overview of the European Union's influence on the regulation of the media sector in the digital age. It explores and compares several areas of European legislation that have an impact on the media sector defined in a broad sense for its capacity to influence the public opinion at large. The Oxford Handbook of Global Legal Pluralism Paul Schiff Berman, 2020 Abstract Global legal pluralism has become one of the leading analytical frameworks for understanding and conceptualizing law in the twenty first century. Harvard Law Review: Volume 131, Number 6 - April 2018 Harvard Law Review, 2018-04-08 Advances in Corporate Governance Helmut K. Anheier, Theodor Baums, 2020-10-22 The governance of the modern corporation is broadly understood as the mechanisms, relations and processes for balancing the interests of stakeholders. It spells out the rules and procedures for decision making, accountability and transparency and distributional rights. Corporate governance thus provides the framework in which corporate objectives are set, the means of attaining them, the kind of performance monitoring required and by whom. In the aftermath of the global financial crisis and large scale corporate failures, the issue of corporate governance has repeatedly received the attention of policy makers and the wider public. Extending the study of corporate governance beyond that of listed corporations sheds new light on the overall performance of corporations in market economies. These include small to medium sized corporations, nonprofit organisations and philanthropic foundations, public corporations and public private partnerships, social enterprises and cooperatives, international organisations and corporations in cyberspace. A decade after the massive failures in the governance of financial corporations and with continued governance failures in other parts of the economy, since then this volume takes stock and asks what has been the performance of corporate governance regimes and how regulatory changes and corporate governance codes made a difference. What are the strengths and weaknesses of current corporate governance systems and codes? How do corporate forms differ in their governance performance and what have been the experiences across countries? And finally, what implications for understanding governance behaviour and for policy makers and regulators come to mind.

Throughout this important resource, Nancy Flynn, an internationally recognized expert on workplace social media, offers a guide to best practices for creating safe, effective, and compliant electronic business communications. The book contains a thorough review of the risks inherent in employees' social media use and content and explores how organizations can help manage behavior, mitigate risks, and maximize compliance through the implementation of strategic social media compliance management programs. These programs combine written policies supported by comprehensive employee education and are enforced by proven, effective technology tools. Once these policies and programs are in place, employers can safely take advantage of the marketing and communications benefits offered by social media. Covering a wealth of material, the book includes vital information on topics such as social media and the law, managing records and e-discovery, regulatory compliance, privacy and security, blog risks and compliance rules, mobile devices, social media risks, a seven-step plan for social media policy and compliance management, conducting a social media audit, creating social media policies, content rules, and compliance policy, compliance and education, reputation management, and more. In addition to addressing pertinent topics on risk management, the book contains cautionary real-life social networking disaster stories that show how organizations can lose revenue and reputations, reveals how employees can lose jobs, and explains how individuals can face public humiliation. The Social Media Handbook is a hands-on guide written for human resource professionals, information technology managers, legal professionals, compliance officers, records managers, and others who need to manage today's technology tools with up-to-date employment rules.
