*NYPD Confidential* Leonard Levitt, 2009-07-21 For years the police commissioner and the mayor of New York City have duked it out for publicity credit and power Some have translated their stardom into success after leaving office while others have been hung out to dry In the battle for control of the country's most powerful police force these high status government officials have often chosen political expediency over public honesty The result is a legacy of systemic corruption and cover ups that is nothing less than shocking Respected journalist Leonard Levitt has covered the NYPD for New York Newsday and the New York Post among other papers His columns have made him persona non grata in police headquarters In *NYPD Confidential* he reveals everything he's discovered throughout his decades long career With amazing details of backroom deals and larger than life powerbrokers Levitt lays bare the backstabbing power grabs and chaotic internal investigations that have run the NYPD's reputation into the ground in the past and the forces conspiring to do so once again **The NYPD Tapes** Graham A. Death Work Vincent E. Henry, 2004-04-01 In this fascinating new book Vincent Henry a 21 year veteran of the NYPD who recently retired to become a university professor explores the psychological transformations and adaptations that result from police officers encounters with death Police can encounter death frequently in the course of their duties and these encounters may range from casual contacts with the deaths of others to the most profound and personally consequential confrontations with their own mortality Using the survivor psychology model as its theoretical base this insightful and provocative research ventures into a previously unexplored area of police psychology to illuminate and explore the new modes of adaptation thought and feeling that result from various types of death encounters in police work The psychology of survival asserts that the psychological world of the survivor one who has come in close physical or psychic contact with death but nevertheless managed to live is characterized by five themes psychic numbing death guilt the death imprint suspicion of counterfeit nurturance and the struggle to make meaning These themes

become manifest in the survivor's behavior permeating his or her lifestyle and worldview. Drawing on extensive interviews with police officers in five nominal categories: rookie officers, patrol sergeants, crime scene technicians, homicide detectives, and officers who survived a mortal combat situation in which an assailant or another officer died, Henry identifies the impact such death encounters have upon the individual, the police organization, and the occupational culture of policing. He has produced a comprehensive and highly textured interpretation of police psychology and police behavior, bolstered by the unique insights that come from his personal experience as an officer, his intimate familiarity with the subtleties and nuances of the police culture's value and belief systems, and his meticulous research and rigorous method. *Death Work* provides a unique prism through which to view the individual, organizational, and social dynamics of contemporary urban policing. With a foreword by Robert Jay Lifton and a chapter devoted to the local police response to the World Trade Center attacks, *Death Work* will be of interest to psychologists and criminal justice experts as well as police officers eager to gain insight into their unique relationship to death.

**Beat Cop to Top Cop** John F. Timoney, 2011-06-21. Born in a rough and tumble neighborhood of Dublin, John F. Timoney moved to New York with his family in 1961. Not long after graduating from high school in the Bronx, he entered the New York City Police Department, quickly rising through the ranks to become the youngest four-star chief in the history of that department. Timoney and the rest of the command assembled under Police Commissioner Bill Bratton implemented a number of radical strategies, protocols, and management systems, including CompStat, that led to historic declines in nearly every category of crime. In 1998, Mayor Ed Rendell of Philadelphia hired Timoney as police commissioner to tackle the city's seemingly intractable violent crime rate. Philadelphia became the great laboratory experiment: Could the systems and policies employed in New York work elsewhere? Under Timoney's leadership, crime declined in every major category, especially homicide. A similar decrease, not only in crime but also in corruption, marked Timoney's tenure in his next position as police chief of Miami, a post he held from 2003 to January 2010.

*Beat Cop to Top Cop: A Tale of Three Cities* documents Timoney's rise from his days as a tough street cop in the South Bronx to his role as police chief of Miami. This fast-moving narrative, by the man *Esquire* magazine named America's Top Cop, offers a blueprint for crime prevention through first-person accounts from the street, detailing how big city chiefs and their teams can tame even the most unruly cities. Policy makers and academicians have long embraced the view that the police could do little to affect crime in the long term. John Timoney has devoted his career to
