Civic Education Richard G. Niemi, Jane Junn, 2005-05-11 Sound democratic decisions rely on a citizenry with at least a partial mastery of the rules and workings of democratic government. American high schools where students learn the basics of citizenship thus ought to play a critical role in the success of democracy. Yet studies examining the impact of high school government and civics courses on political knowledge over the past quarter century have generally shown that these courses have little or no effect. In this important book, Richard G. Niemi and Jane Junn take a fresh look at what America's high school seniors know about government and politics and how they learn it. The authors argue convincingly that secondary school civics courses do indeed enhance students' civic knowledge. This book is based on the most extensive assessment to date of civic knowledge among American youth: the 1988 National Assessment of Education Progress (NAEP) Civics Assessment. The authors develop and test a theoretical model to explain the cognitive process by which students learn about politics and they conclude by suggesting specific changes in the style and emphasis of civics teaching.

Teaching Civics in Unstable Times Andrew Tripodo, 2021-11-10 American political culture runs through civics classrooms and the degraded dialogue and scorched earth partisanship that has defined modern American politics is an indicator that all is not well in our nation's schools. Teaching Civics in Unstable Times: Guidelines for Defining We in American Democracy offers a fresh, expansive view of what civic education can look like in K-12 classrooms and presents three strategies to help teachers, curriculum writers, and administrators turn their schools into laboratories for democracy that train young people for the moral and intellectual challenges of democratic citizenship. This book defines democracy as a way of life that is characterized by frequent public engagement, stubborn open-mindedness, and rigorous debate. Our democratic government depends on our citizens leading a democratic life, and civic education's chief priority is to teach young people how to do so. Civic curriculum has spent decades obsessing over names and dates that fail to give students a sense of their vaunted place in our governing system. This book presents three strategies for teaching civics that invest young people in our shared grand experiment in self-government and prepares them to lead our nation towards a politics that is more compassionate, inclusive, and inspired.
