**The Oblivions of The Cosmos** Cometan, Gomedan, 2019-11-23 The Oblivions of The Cosmos is the thirtieth instalment in the Little Blue Book Series and comprises of the forty eighth discourse of the Monodoxy which is itself the first disquisition of the Omnidox, the founding book of Astronism. A haunting single discourse publication constituting over 250 insentations. The Oblivions of The Cosmos investigates one of the most ominous and chaotic progenies in The Cosmos: black holes. To introduce the discipline of cosmontology known as obliology, this discourse examines all aspects and possibilities regarding the nature, form, purpose, eventualities and physicalities of black holes with implicit connections to the beliefs of Astronism, particularly regarding the tradition of mystery surrounding black holes in Astronist philosophy and religion. The Little Blue Book Series was created and first published by Cometan himself as a way to simplify and commercialise the immensity of the two million word length of the Omnidox into smaller, more bite-size publications. A successful series from its very first published entry, the Little Blue Book Series has gone on to become a symbol of Astronist commercial literature and a way for Cometan's words to reach readers of all ages and abilities who remain daunted by the beauty and yet the sheer extensiveness of the Omnidox as the longest religious text in history.

When a treatment is developed that can restore his memories, he leaps at the chance. He doesn't know his journals are fiction. He doesn't know his younger self was a psychopath.

**Much Ado about Nothing** William Shakespeare, 1929 Claudio is deceived by his jealous cousin into believing that his lover Hero is unfaithful a plot unveiled by the bumbling constables Dogberry and Verges *The Linebook*, 1927 **The Discursive Fight over Religious Texts in Antiquity** Anders-Christian Jacobsen, 2009-04-22 The volumes of Religion and Normativity presents the latest research in three central fields Volume I discusses the construction of normative texts in early Christianity and Judaism including canon formation the question of authoritative interpretation of canon and the re writing of normative texts in new situations Among other things the authors employ literary theories and memory construction Terminal Sedation: Euthanasia in Disguise? Torbjörn Tännsjö, 2004-06-01 **TERMINAL SEDATION DURING THE 1990s** During the 1990s a discussion took place in scholarly journals concerning a measure within palliative care that had earlier attracted little attention to wit the sedation of dying patients There seem to have been two main reasons why the practice came under debate On the one hand some people felt that when palliative medicine had advanced and methods to control symptoms had improved it was no longer justified to sedate the patients in a manner that had often been done in the past The system of 1 terminal sedation had turned into euthanasia in disguise or slow euthanasia On the other hand there were people sympathetic to the recently established Dutch system of euthanasia people who agreed that terminal sedation was euthanasia in disguise but who felt that if it is not objectionable to sedate dying patients at their request then why should it not be permitted for doctors to kill dying patients at 2 request From these two motives a discussion about terminal sedation gained momentum The intention behind this anthology is to continue and deepen this discussion The anthology starts off with a chapter where an influential article from the 1990s has been reprinted Order and History Eric Voegelin, 2000 Annotation In Search of Order brings to a conclusion Eric Voegelin's masterwork Order and History Voegelin conceived Order and History as a philosophical inquiry concerning the principal types of order of human existence in society and

history as well as the corresponding symbolic forms In previous volumes Voegelin discussed the imperial organizations of the ancient Near East and their existence in the form of the cosmological myth the revelatory form of existence in history developed by Moses and the prophets of the Chosen People the polis the Hellenic myth and the development of philosophy as the symbolism of order and the evolution of the great religions especially Christianity This final volume of *Order and History* is devoted to the elucidation of the experience of transcendence that Voegelin discussed in earlier volumes He aspires to show in a theoretically acute manner the exact nature of transcendental experiences Voegelin's philosophical inquiry unfolds in the historical context of the great symbolic enterprise of restating man's humanity under the horizon of the modern sciences and in resistance to the manifold forces of our age that deform human existence His stature as one of the major philosophical forces of the twentieth century clearly emerges from these concluding pages In *Search of Order* deepens and clarifies the meditative movement that Voegelin now in reflective distance to his own work sees as having been operative throughout his search Because of Voegelin's death on January 19 1985 *In Search of Order* is briefer than it otherwise might have been however the theoretical presentation that he had set for himself is essentially completed here Just as this volume serves Voegelin well in his striking analyses of Hegel Hesiod and Plato it will serve as a model for the reader's own efforts in search of order
