Being an occupational therapy assistant has several significant advantages. Primarily, it is a valuable opportunity to realize one's desire to help people. In this regard, this profession allows one to directly solve various problems of patients, thus making a considerable contribution to society as a whole. In addition, the assistant makes a valuable contribution to the functioning of the healthcare system by performing the actions necessary for the recovery, development, and improvement of the patient's health. Since occupational therapy directly affects a person's quality of life, it requires a clear understanding of the job and an appropriate level of interest and desire to help people.

Understanding the aspects of being an occupational therapy assistant and having the appropriate qualities and attitudes are crucial to this profession. Hence, motivation and an awareness of the profession's positive characteristics are vital. An essential advantage of occupational therapy is the diversity of practice. Assistants help people of all ages to overcome various problems affecting their quality of life (AOTA, 2022). The opportunity to help different people contributes significantly to my interest in this profession. In this respect, gaining experience with diverse patients benefits my professional development and creates additional motivation for work. In addition, I understand that this profession is very challenging because of the need to work in various situations. However, I consider the challenges an additional motivating factor because they encourage occupational therapy assistants to develop their professional skills. Therefore, being an occupational therapy assistant is very rewarding and allows one to realize their desire
