Ballard's Politics** Florian Cord, 2017-01-23 This book is the first sustained investigation of the political dimension in the work of J G Ballard A product of and reaction to the cultural socio economic moment commonly designated as the postmodern condition Ballard's oeuvre is read as a continuous and developing meditation on the postmodern examining it specifically as an expression of late capitalism The book shows that at the heart of this meditation lies the question of resistance Drawing on a wide range of concepts and ideas taken from the field of critical theory it argues that in the face of a world marked by an unprecedented expansion of capital in which modernity's grand narratives have been invalidated and in which received forms of political struggle have lost their effectiveness Ballard's fiction commits itself to a deliberately irrational and extreme pataphysical thought in order to develop a new discourse of resistance Against past readings that have construed Ballard's writing as non political decadent or quietist the study thus reveals Ballard as a thoroughly political author committed to a subversive politics In this way the book also constitutes a timely intervention in the ongoing discussion concerning the nature and state of the political User's Guide to Coenzyme Q10 Martin Zucker, 2002 Explains what you need to know when using coenzyme Q10 to boost your health

A User's Guide to Capitalism and Schizophrenia Brian Massumi, 1992-03-06 *A User's Guide to Capitalism and Schizophrenia* is a playful and emphatically practical elaboration of the major collaborative work of the French philosophers Gilles Deleuze and Felix Guattari. When read along with its rigorous textual notes, the book also becomes the richest scholarly treatment of Deleuze's entire philosophical oeuvre available in any language. Finally, the dozens of explicit examples that Brian Massumi furnishes from contemporary artistic, scientific, and popular urban culture make the book an important, perhaps even central, text within current debates on postmodern culture and politics. *Capitalism and Schizophrenia* is the general title for two books published a decade apart. The first, *Anti-Oedipus*, was a reaction to the events of May/June 1968; it is a critique of state, happy Marxism, and school building strains of psychoanalysis. The second, *A Thousand Plateaus*, is an attempt at a positive statement of the sort of nomad philosophy Deleuze and Guattari propose as an alternative to state philosophy.
