Thinking Medieval Romance Katherine C. Little, Nicola McDonald, 2018-11-10 Medieval romances with their magic fountains brave knights and beautiful maidens have come to stand for the Middle Ages more generally This close connection between the medieval and the romance has had consequences for popular conceptions of the Middle Ages an idealized fantasy of chivalry and hierarchy and also for our understanding of romances as always already archaic part of a half forgotten past And yet romances were one of the most influential and long lasting innovations of the medieval period To emphasize their novelty is to see the resources medieval people had for thinking about their contemporary concern and controversies whether social order Jewish Christian relations the Crusades the connectivity of the Mediterranean women's roles as mothers and how to write a national past This volume takes up the challenge to think romance investigating the various ways that romances imagine reflect and describe the challenges of the medieval world

The Medieval Greek Romance Roderick Beaton, 2012-05-31 First published by CUP in 1989 The Medieval Greek Romance provides basic information for the non specialist about Greek fiction during the period 1071-1453 as well as proposing new solutions to problems that have vexed previous generations of scholars Roderick Beaton applies sophisticated methods of literary analysis to the material and the bridges of the artificial gap which has separated Byzantine literature in a form of ancient Greek as both homogenous and of a high level of literary sophistication Throughout consideration is given to relations and interconnections with similar literature in western Europe As most of the texts discussed are not available in English translation the argument is illustrated by lucid plot summaries and extensive quotation accompanied by literal English renderings For this edition The Medieval Greek Romance has been revised throughout and expanded with the addition of an Afterword which assesses and responds to recent work on the subject

Negotiating Secular and Sacred in Medieval Art Amanda Luyster, 2017-07-05 Offering original analysis of the convergence between sacred and secular in medieval works of art and architecture this collection explores both the usefulness and limitations of these terms for describing medieval attitudes The modern concepts of sacred and secular are shown to be effective as scholarly tools but also to risk imposing false dichotomies The authors consider medieval material culture from a broad perspective addressing works of art and architecture from England to Japan and from the seventh to the fifteenth century Although the essays take a variety of methodological approaches they are unified in their emphasis on the continuing and necessary dialectic between sacred and secular The contributors consciously frame their interpretations in terms and perspectives derived from the Middle Ages thereby demonstrating how the present art historical terminology and conceptual frameworks can obscure the complexity of medieval life and material culture The resonance among essays opens

possibilities for productive cross cultural study of an issue that is relevant to a diversity of cultures and sub periods

Introducing an innovative approach to the literature of the field this volume complicates and enriches our understanding of social realities across a broad spectrum of medieval worlds Catalogue of Romances of Chivalry. Siegfried Sassoon David Jones Graham Greene Ian Fleming and John Le Carre Romance's Rival Talia Schaffer,2016-01-05

Romance s Rival argues that the central plot of the most important genre of the nineteenth century the marriage plot novel means something quite different from what we thought In Victorian novels women may marry for erotic desire but they might instead insist on familiar marriage marrying trustworthy companions who can offer them socially rich lives and futures of meaningful work Romance s Rival shows how familiar marriage expresses ideas of female subjectivity dating back through the seventeenth century while romantic marriage felt like a new risky idea Undertaking a major rereading of the rise of the novel tradition from Richardson through the twentieth century Talia Schaffer rethinks what the novel meant if one tracks familiar marriage virtues This alternative perspective offers new readings of major texts Austen the Bront s Eliot Trollope but it also foregrounds women s popular fiction Yonge Oliphant Craik Broughton Offering a feminist perspective that reads the marriage plot from the woman s point of view Schaffer inquires why a female character might legitimately wish to marry for something other than passion For the past half century scholars have valorized desire individuality and autonomy in the way we read novels Romance s Rival asks us to look at the other side to validate the yearning for work family company or social

power as legitimate reasons for women's marital choices in Victorian fiction Comprehensive in its knowledge of several generations of scholarship on the novel Romance's Rival convinces us to re-examine assumptions about the nature and function of marriage and the role of the novel in helping us not simply imagine marriage but also process changing ideas about what it might look like and how it might serve people

Naming and Namelessness in Medieval Romance Jane Bliss, 2008 A survey of the significance of names or their absence in medieval English French and Anglo Norman romance Naming and namelessness are among the major themes of medieval romance Because the genre is so difficult to define scholars have viewed romance as containing a critical number of themes this book treats naming as a major theme of romance and furthermore examines romance's relationship with contemporary naming theory A new genre it is able to play with naming in a way that previously established genres are not The book begins with a discussion of the medieval background to romance and explores a series of naming patterns found across a broad range of texts It continues with detailed analysis of twenty-one romances in English French and Anglo Norman from 1130 to 1500 to show how naming themes are treated differently in each and to demonstrate the importance of name as a generic marker Finally an appendix provides details of each romance's context together with indications for further research JANE BLISS is an independent scholar she gained her PhD from Oxford Brookes University
