private sector That some targets were not achieved is due to the challenges of implementing policy effectively efficiently and equitably at grassroots level lack of resources and funding and some ambitious goals and targets not being realistic in the current economic political and market contexts Addressing these challenges requires a new approach and more effective economic social and technical solutions Development of VFDS 2021 2030 and the 2050 vision needs to consider the implementation achievements and challenges of the previous policy as well as how to align with global trends and balance these with the current political economic and social development context in Vietnam The direction of the new strategy must also be considered in the context of international requirements to facilitate the mobilization of domestic and foreign financial resources to help modernize the industry as well as enhance the forestry sector's role and value in terms of poverty reduction sustainable economic development and ensuring sustainable forest ecosystems **A New Companion to Digital**
