competition the skills that enable workers to access and then leverage the new economy and the institutions that are accountable to citizens have not kept pace And when these analog complements to digital investments are absent the development impact can be disappointing What then should countries do They should formulate digital development strategies that are much broader than current information and communication technology ICT strategies They should create a policy and institutional environment for technology that fosters the greatest benefits In short they need to build a strong analog foundation to deliver digital dividends to everyone everywhere *Federal Register* ,2014 Research Anthology on Microfinance Services and Roles in Social Progress Management Association, Information Resources,2022-09-23

Financial Inclusion and Digital Transformation Regulatory Practices in Selected SADC Countries

Howard Chitimira, Tapiwa Victor Warikandwa, 2023-03-28 This book investigates the regulation and promotion of financial inclusion and provides a comparative analysis of the regulation promotion and enforcement of the relevant laws in the SADC in particular South Africa Namibia Botswana and Zimbabwe as well as the challenges of financial inclusion In turn it evaluates financial inclusion in the context of specific challenges faced by unbanked and underbanked customers who are easy targets for cyber criminals because they tend to have lower levels of digital literacy The book presents novel discussions that identify the challenges and flaws associated with the enforcement of financial inclusion laws and related measures intended to promote financial inclusion in the SADC region This is primarily done in order to reveal the current strengths and

weaknesses of financial inclusion laws in relation to certain aspects of the companies securities and financial markets in the region For example there is no common financial inclusion instrument law that is effectively and uniformly applied throughout the SADC This has impeded the enforcement authorities efforts to effectively combat financial exclusion across the region The book is likely the most comprehensive study to date on the regulation and promotion of financial inclusion in the SADC region and fills a major gap in SADC and African legal jurisprudence As such it offers a valuable asset for policymakers attorneys bankers securities share holders and other market participants who deal with financial inclusion as well as undergraduate and graduate students interested in the topic Madrid Yearly Review 2015 World Intellectual Property Organization, Comprehensive facts figures and analysis of the international registration of marks International Perspectives on Psychotherapy Stefan G. Conflict and Development Andrew J. Williams, Alasdair Gordon-Gibson, 2024-09-26 Fully revised and updated in its third edition this timely book brings together the study of conflict and war and the problems surrounding the economic development of developing societies that are most prone to experiencing problems in moving on after war The book does so by reflecting on the issues surrounding war as it unfolds and after it has in principle ended within the context of the history present day problems and future prospects The book aims to highlight the possibilities successes and failures of past and present policies that bring development to countries and peoples that want to be more involved in deciding their own futures after conflict and war and often find themselves subject to what can be seen as arbitrary and even alien ways of thinking and acting by institutions in which they theoretically have membership and agency but often do not in practice The case studies have been fully updated to reflect changes and developments since the second edition of this text and there are questions at the end of each chapter to promote reflection This new edition presents a deeper dive into the history of conflict and the emergence of new theories and policy guidance about present and future options in the fields of conflict and development Accessible and engaging this textbook is a pivotal resource for a nexus of subjects related to the often separated fields of conflict and development studies as well as practitioners in this area
