Wasserman,2016-05-23 The authors of this new collection argue that the many features of the now infamous Duke University men s lacrosse controversy are best understood in the context of the three major socio legal institutions in which the drama played out The legal system Duke University and the news media all struggled to respond to and handle the case tinged as the events were with race sex violence class privilege and notions and perceptions about sports The problems missteps mistakes and injustice in the case resulted from each institution s failure to operate properly from the incentives built into each institution that affected individual behavior and from the inability of each institution to communicate and cooperate with the others To understand the Duke lacrosse controversy is to study these institutions and to answer questions about the performance of each to learn what each did right and wrong and why and to consider how each can improve in the future By examining the actions of these institutions and the individuals within them these essays consider the role each played in the case how each contributed to the crisis and to its resolution the ways in which they interacted with one another and the lessons this case teaches about the appropriate functioning of each institution **Challenges of Policing Democracies**

Dilip Das,Marenin Otwin,2012-10-12 In this text the editors analyze the diverse situations that police forces operate under and the challenges that they face in different kinds of democracies This cross cultural comparison of various systems highlights the universal observation that police are a anomaly in a democracy and explores how various influences for example large scale social violence a zeal for crime fighting and vulnerability to temptation often find police incapable of behaving in a democratic manner Challenges of Policing Democracies goes beyond just showing the similarities and differences of the policing challenges democratic societies face it also examines the responses and remedies adopted by police in various countries at different levels of democratic achievement and how every society struggles with the challenges of preserving democratic values without sacrificing the effectiveness of policing Commission on Civil Rights Report

United States Commission on Civil Rights, **Policing Police Violence** Hans van Mastrigt,Niels Uildriks,2023-12-04 For many years both police violence and the complaints procedures have been important topics for debate in Britain and elsewhere This book aims to provide a contribution to this debate by analysing the way in which police violence at present is

and should be policed On the basis of a case study in Glasgow the authors examine the phenomenon of police violence and the occupational reality in which it can be most adequately controlled The present type of British complaints system was found to have little to offer to the victims of such incidents and to be even counterproductive as a mechanism of control of police behaviour This book discusses the main structural amendments which would enable the complaints procedure to provide a more adequate response It is contended that the police themselves can and should play a major role in the control of police violence and that they should have both the responsibility and opportunity for rectifying what went amiss The implications of his study extend beyond the immediate Glaswegian Scottish and even British context and are of wider interest to all those who are concerned with the issues and problems of police violence policing police misconduct and police accountability in general **Revisiting Who is Guarding the Guardians?** United States Commission on Civil Rights,2000
