Reclaiming Basque Jacqueline Urla,2012 An examination of Basque language activism in the twentieth century

Reclaiming Basque Jacqueline Urla,2012-03-31 The Basque language Euskara is one of Europe s most ancient tongues and a vital part of today s lively Basque culture Reclaiming Basque examines the ideology methods and discourse of the Basque language revitalization movement over the course of the past century and the way this effort has unfolded alongside the simultaneous Basque nationalist struggle for autonomy Jacqueline Urla employs extensive long term fieldwork interviews and close examination of a vast range of documents in several media to uncover the strategies that have been used to preserve and revive Euskara and the various controversies that have arisen among Basque language advocates Basques and Vicuñas at the Mouth of Hell Kris Lane,2024-11-07 In June 1622 the silver mining metropolis of Potos Bolivia erupted in gangland violence only halted three years later by a viceroy s blanket amnesty Basque immigrants were at the center of the controversy squaring off against nearly a dozen other nations known collectively as Vicu as At stake were the world s richest silver mines a means to wealth and power in the Americas Europe and beyond As mines flooded and Indigenous workers died or fled the city descended into a maelstrom of swordfights gun battles ambushes sniper attacks and summary executions Though its roots were economic the Basque Vicu a conflict strained the sinews of Habsburg global governance even as it exposed festering local tensions only some of which were unique to Potos This rich collection of original sources all of them archival documents housed in Bolivia Spain the United Kingdom and the United States consists of contemporary eyewitness accounts from several perspectives allowing readers to play historian All sources have been expertly translated and carefully annotated in a manner that will engage students and scholars alike Basques and Vicu as at the Mouth of Hell includes an extensive introduction seven vital documents in translation and appendices on everyday life in 1620s Potos and on the historiography of this watershed episode of colonial violence **Basque Immigrants and Nevada's Sheep Industry** Iker Saitua,2019-03-20 Basque Immigrants and Nevada s Sheep Industry is a rich and complex exploration of the history of Basque immigration to the rangelands of Nevada and the interior West It looks critically at the Basque shepherders in the American West and more broadly at the modern history of American foreign relations with Spain after the Second World War Between the 1880s and the 1950s the western open range sheep industry was the original economic attraction for Basque immigrants This engaging study tracks the development of the Basque presence in the American West providing deep detail about the shepherders history native and local culture the challenges they faced and the changing conditions under which the Basques lived and worked Saitua also shows how Basque immigrant shepherders went from being a marginalized labor group to a desirable high priced workforce in response to the constant demand for their labor power As the twentieth century progressed the geopolitical tide in America began to change In 1924 the Restrictive Immigration Act resulted in a truncated labor supply from the Basque Country in Spain During the Great Depression and the Second World War the labor

shortage became acute In response Senator Patrick McCarran from Nevada lobbied on behalf of his wool growing constituency to open immigration doors for Basques the most desirable laborers for tending sheep in remote places Subsequently Cold War international tensions offered opportunities for a reconciliation between the United States and Francisco Franco despite Spain s previous sympathy with the Axis powers This fresh portrayal shows how Basque immigrants became the backbone of the sheep industry in Nevada It also contributes to a wider understanding of the significance of Basque immigration by exploring the role of Basque agricultural labor in the United States the economic interests of Western ranchers and McCarran s diplomacy as catalysts that eventually helped bring Spain into the orbit of western democracies

Basque Firsts Vince J. Juaristi, 2016-10-18 Throughout history Basque men and women have made contributions in navigation education science fashion politics and many other fields Too often these achievements have been overlooked or have been claimed as the accomplishments of others *Basque Firsts* People Who Changed the World profiles seven remarkable Basques who were the first in their fields to do something something extraordinary that had a dramatic impact on others who followed them The profiles use primary sources to tell fresh stories and offer a wonderful variety showing the astonishing breadth of Basque contributions They include Juan Sebast an Elcano the first person to circumnavigate the earth St Ignatius of Loyola the first Jesuit to seed a worldwide movement in education Santiago Ram n y Cajal the Father of Neurology and a Nobel laureate Crist bal Balenciaga the king of haute couture Paul Laxalt one of Ronald Reagan s closest friends in politics and Edurne Pasaban the first woman to climb the world s fourteen tallest mountains *Basque Firsts* provides a rare look at a culture s people revealing the significant contributions they have shared *New Geographies of Language* Rhys Jones, Huw Lewis, 2018-11-19 This book develops a novel approach to the study of language bringing it into dialogue with the latest geographical concepts and concerns and provides a comprehensive account of the geography of Welsh language analysing policy development language use ability and shift The authors examine in particular the different ways in which languages can be mapped how geographical insights can be used to develop understandings of language use the value of assemblage theory as a way of interpreting the social technical and spatial aspects of language policy development and the geographies that characterise institutional engagements with languages This book will set a research agenda for the geographical study of language developing a conceptual framework that will offer fresh insights to researchers in the fields of Applied Linguistics Sociolinguistics Minority Languages Geolinguistics and Public Policy *Remaking Kichwa* Michael Wroblewski, 2021-01-28 Investigating the efforts of the Kichwa of Tena Ecuador to reverse language shift to Spanish this book examines the ways in which Indigenous language can be revitalized and how creative bilingual forms of discourse can reshape the identities and futures of local populations Based on deep ethnographic fieldwork among urban periurban and rural indigenous Kichwa communities Michael Wroblewski explores adaptations to culture contact language revitalization and political mobilization through discourse Expanding the ethnographic picture of native Amazonians and their traditional

discourse practices this book focuses attention on Kichwas diverse engagements with rural and urban ways of living local and global ways of speaking and Indigenous and dominant intellectual traditions Wroblewski reveals the composite nature of indigenous words and worlds through conversational interviews oral history narratives political speechmaking and urban performance media showing how discourse is a critical focal point for studying cultural adaptation Highlighting how Kichwas assert autonomy through creative forms of self representation Remaking Kichwa moves the study of Indigenous language into the globalized era and offers innovative reconsiderations of Indigeneity discourse and identity Sustainable Food

Networks: Chains of Values and Food Transitions Carolina Yacamán-Ochoa, José Luis Sánchez-Hernández, Javier

Sanz-Cañada, 2025-06-12 Sustainable Food Networks SFNs are emerging as pivotal value chains for agroecological and food transitions in both urban and rural territories These networks aim to create a healthy fair localized and inclusive food supply model standing in contrast to the dominant corporate food system characterized by long haul complex and fragile supply chains Despite their potential SFNs such as community supported agriculture farmers markets and urban agriculture have not been thoroughly examined through the lens of economic geography and related interdisciplinary perspectives The current globalized food system is fraught with economic social and environmental issues including the marginalization of family farming environmental degradation and the loss of local knowledge and biodiversity SFNs offer a critical alternative by emphasizing small batch production environmental sustainability and social equity yet there remains a significant gap in understanding their full impact and potential This research topic aims to collate comprehensive research on Sustainable Food Networks SFNs with specific objectives identifying various SFN initiatives across different territories evaluating their spatial dimensions in global contexts and assessing policies that can enhance the social economic and environmental sustainability of food value chains Key questions include how alternative values are propagated within SFNs the critical spatial nodes for these values the role of urban and peri urban agriculture and the interplay between territorial conditions and SFN performance Additionally the research seeks to understand how SFNs compete with hegemonic value chains and the potential role of public policy in strengthening these networks To gather further insights into the complexities and potentials of SFNs we welcome articles addressing but not limited to the following themes The propagation and transfer of alternative values within SFNs Identification of critical spatial nodes for the reproduction of these values Roles of urban and peri urban agriculture in SFNs Relationships between territorial conditions governance and SFN performance Strategies employed by SFNs to tackle competition from corporate value chains The impact of SFNs on the surge of local organic and healthy food outlets The role of public policy in supporting and strengthening SFNs **De-Pathologizing Resistance**

Dimitrios Theodossopoulos, 2017-10-02 In a time of renewed interest in insurrectionary movements urban protest and anti austerity indignation the idea of resistance is regaining its relevance in social theory De Pathologizing Resistance re examines resistance as a concept that can aid social analysis highlighting the dangers of pathologising resistance as illogical

and abnormal or exoticising it in romanticised but patronising terms Taking a de pathologising and de exoticising perspective this book brings together insights from older and newer studies the intellectual biographies of its contributing authors and case studies of resistance in diverse settings such as Egypt Greece Israel and Mexico From feminist studies to plaza occupations and anti systemic uprisings there is an emerging need to connect the analysis of contemporary protest movements under a broader theoretical re examination The idea of resistance with all of its contradictions and its dynamism provides such a challenging opportunity This book was originally published as a special issue of History and Anthropology

The Oxford Handbook of Language and Society Ofelia García, Nelson Flores (Linguist), Massimiliano Spotti, 2017 This book challenges basic concepts that have informed the study of sociolinguistics It proposes a critical poststructuralist perspective that examines the socio historical context that led to the emergence of dominant sociolinguistic concepts and develops new theoretical and methodological tools that challenge these dominant concepts
