

PROJECT PROPOSAL

I. PROFILE:

Title	:	Tuna Fishing Boat
Project Cost	:	Php 3,753,300.00
Beneficiaries	:	Federation of Fisherfolk Associations of Davao City (FFADC)
Lead Agency	:	City Agriculturist's Office

II. RATIONALE:

In the early days of Philippine fishing industry, tuna was caught just a little over 100 meters from shore off Mindanao. Today the closest they can be found in volume is beyond 15km from the shoreline or within the commercial fishing waters. To reach this far, our fishermen will need a commercial scale fishing boat.

Longline fishing is usually used to catch tuna species. It will use one or more long heavy fishing lines with a series of hundreds or even thousands of baited hooks hanging from the main line by means of branch lines called "snood". Hand operated longlining can be operated from boats of any size. The number of hooks and lines handled depends on the size of vessel, the number of crew, and the level of mechanisation. Large purpose built longliners can be design for single species fisheries such as tuna, thus this project will provide commercial scale tuna fishing boat with complete accessories and longlines fishing gear.

III. OBJECTIVES:

The general objectives of this project aims to develop and upgrade beneficiaries' knowledge and skills on tuna fishing using commercial scale fishing boat in order to increase income, provide sustainable livelihood and employment among fisherfolk and contribute to food security and poverty alleviation program.

IV. METHODOLOGY:

The project will be focused on operation and maintenance of the commercial scale tuna fishing boat. The project will be exposing the beneficiaries on the theoretical and actual application of the technology of tuna fishing using commercial scale tuna fishing boat.

V. BENEFICIARIES:

Fisherfolk members of the Federation of Fisherfolk Associations of Davao City.

Collaborative Research in Fisheries Peter Holm, Maria Hadjimichael, Sebastian Linke, Steven Mackinson, 2020-02-24
This book is about the ongoing transition of fisheries governance from top down command and control towards a more transparent and participatory form. It focuses on the emergence of research practices and advice frameworks that allow co-creation of common knowledge bases for management. Drawing from 8 years of research in GAP, a two-stage 7th framework EU project, the book offers a critical examination of how knowledge practices in fisheries governance are changing. The entry point for this research is a series of practical experiments in the uncharted terrain of collaborative research. To gain insight into the ongoing transition in European fisheries management, GAP initiated and carried out 13 Case Studies in different settings across Europe. In each case study, a team of fishers and marine scientists worked together to identify, plan and implement research projects intended to make a difference. The cases vary. They take on different management issues and shape the collaborations in different ways. The extent to which they succeed in realizing their objectives also differs. They are all contributing important insights into the possibilities of co-creating knowledge for management purposes. The book delves into the individual experiences of each case study as well as the lessons they contribute as a whole. The examination concludes that while research partnerships are not always easy to establish, they are an important step towards better fisheries governance. Without a common knowledge base for fisheries governance co-created through collaborative research practices, sustainable fisheries will remain out of reach.

General Fisheries Council for the Mediterranean (GFCM) Report of the Seventeenth Session, 1985-04-16 **Report of the National Workshop on Micro-Enterprise**

Development in Coastal Communities in the Philippines Food and Agriculture Organization of the United Nations, 2007-01-01
The goals of the National Workshop on Micro-enterprise Development in Coastal Communities in the Philippines were to exchange experiences and good practices and to identify financial and institutional support services and facilities to sustain livelihoods and micro-enterprise development in coastal areas. The workshop was attended by 45 participants from people's organizations, fisherfolk cooperatives, non-governmental organizations, national government agencies and financing institutions. The discussions at the workshop showed that livelihood diversification and the improvement of income and employment opportunities in coastal fishing communities are crucial for their participation in the conservation and management of aquatic resources. Key elements of sustainable micro-enterprise development as identified by the workshop include capability building of fisherfolk organizations such as cooperatives and associations to implement livelihood projects, the preparation of feasibility studies and business plans, technical skills development, sound financial management practices, development of innovative and high quality products, access to new markets including urban and regional markets, and the full participation of fisherfolk in the identification of livelihood activities and micro-enterprises. The Pilot Project in Support of the Development of Micro-enterprises in Banate Bay, Iloilo and Southern Iloilo was implemented by

the University of the Philippines in the Visayas in cooperation with the Banate Bay Resource Management Council Inc and the Southern Iloilo Coastal Resource Management Council with support from FAO A number of microenterprises were introduced and supported in the municipalities of Banate Bay and Southern Iloilo including fish ball production shrimp paste production oyster and mussel culture salt production and iodization fish marketing and fish sauce production Training programmes were conducted for fisherfolk on product development and marketing of their products Good coordination with local government units active participation of all stakeholders and conduct of appropriate training programmes are considered essential for the sustainability of the micro enterprises The involvement of fisherfolk in livelihood activities and micro enterprises is strengthening their participation in the fisheries and aquatic resources management councils of Banate Bay and Southern Iloilo The experiences of the pilot project also suggest that in order to make various income generating livelihood initiatives sustainable and stand on their own feet many of these need to develop further into full fledged micro enterprises Considerable scope lies in farming of aquatic organisms such as seaweed shellfish and various fish species as well as in fisheries related value adding activities such as fish processing and marketing As far as the relationship between the conservation of aquatic resources and the generation of income is concerned the quality of the aquatic environment and the economic success of mariculture micro enterprises and activities are directly related This should create a strong motivation for fisherfolk entrepreneurs involved in such type of enterprises to be strong advocates and stewards of a healthy coastal ecology In the long term fisherfolk will benefit from the development of various micro enterprise initiatives It is clearly in their interest

Sample Fishing Project Proposal In Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Sample Fishing Project Proposal In free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Sample Fishing Project Proposal In free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced

search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Sample Fishing Project Proposal In free PDF files is convenient, its important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but its essential to be cautious and verify the authenticity of the source before downloading Sample Fishing Project Proposal In. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether its classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Sample Fishing Project Proposal In any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About Sample Fishing Project Proposal In Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Sample Fishing Project Proposal In is one of the best book in our library for free trial. We provide copy of Sample Fishing Project Proposal In in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Sample Fishing Project Proposal In. Where to download Sample Fishing Project Proposal In online for free? Are you looking for Sample Fishing Project Proposal In PDF? This is definitely going to save you time and cash in something you should think about.
