

Sample Letter to Parents/Guardians Regarding PARCC Test Accommodations for Spring 2016

[NOTE: Districts may adapt this letter to the circumstances of individual students with disabilities for whom you are sending this parent notification. Choose either section A or B (or both) and the relevant items listed in each.]

Dear Parent or Guardian:

Massachusetts will decide in the fall of 2015 whether the new PARCC tests will replace the MCAS tests. PARCC is the Partnership for the Assessment of Readiness for College and Careers. If PARCC is adopted, your child will take the new tests in English language arts (ELA) and Mathematics in grades 3 through 8. About half of all Massachusetts students participated in PARCC tests in spring 2015.

Most likely, your child's Individualized Education Program (IEP) lists the accommodations your child can receive on MCAS tests. However, PARCC is a different test. In most cases, the accommodations allowed are the same for MCAS and PARCC, but there are some important differences. If your child's IEP identifies an MCAS accommodation that is also allowed on PARCC, it will be given during PARCC testing this spring.

Section A: Below are two additional accommodations that will be available to your child during the spring 2016 PARCC testing, if PARCC replaces MCAS. The IEP Team may add these accommodations, if needed, to your child's plan.

- **Extended testing time:** Unlike the MCAS tests, PARCC tests are timed. Students must finish their test within the time limit, but students with disabilities and English language learners may have until the end of a school day ("extended time") to finish each PARCC test, as they did on MCAS. If the Team agrees that he or she needs this accommodation, extended time will be added to the IEP.
- **Paper version of the test:** PARCC was meant to be given on a computer, but schools may choose to give the PARCC tests using a paper version. Even if other students in the school will take PARCC tests on a computer, students with disabilities are allowed to take the paper version of the test if they cannot use a computer for testing. If the IEP team agrees that your child needs this accommodation, it will be added to the IEP for PARCC.

Section B: Below is an MCAS accommodation that may already be listed on your child's current IEP, but is *not allowed* for the PARCC tests. This accommodation *will not be provided* during the spring 2016 PARCC assessments and if PARCC replaces MCAS, it *may not be designated* for PARCC testing in the future.

- PARCC test policies do not allow any student to use a **graphic organizer or individualized math reference sheet**, including students with disabilities. Even if your child's IEP lists the use of these tools on state- or district-wide assessments, they will not be allowed on PARCC tests. Why? Because PARCC and MCAS test questions are quite different. The graphic organizers and individual reference sheets used for MCAS will not be useful and may lead students to give the wrong answers on PARCC tests. Additionally, if these tools are used, you will not receive accurate information about your child's performance and the test results will be invalid. For PARCC testing, all students will be given blank paper and can draw a graphic organizer from memory, and all students in grades 5 and higher will get a "standard" math reference sheet.

Thank you for your cooperation. We hope you understand that some of the rules for taking PARCC tests will be different from those for MCAS. Please contact your child's school or the local special education office if you have any questions about your child's special education program.

EdSpeak and Doubletalk Diane Ravitch,Nancy E. Bailey,2019-12-27 While this glossary will be an indispensable dog-eared reference to terminology across the field of

education for aspiring teachers and education leaders and should be a required supplemental text for all introductory course the value that Diane Ravitch renowned spokesperson for public education and for the best possible education for all children adds is that she addresses the real profit centered and privatization drivers that lie behind so many organizations and models that have perverted the term reform and purport to care for students but in fact often harm or exploit them a kind of whistleblower book on organizations programs and practices that are not what they seem often branded with positive promotional names masking programs for profit panacea programs with little real benefit to students some like accountability actually harmful to the most financially disadvantaged students through constant testing prep at the expense of learning In Diane s words This book is not simply a glossary of easily defined terms that can be looked up on the Internet It is a judgmental evaluative appraisal of terms and organizations that would not be easily gleaned on the Internet It guides readers through the thickets of jargon and hype that are often sales pitches to unwary consumers It shines a light on the language related to groups and practices that are seriously endangering democratic public schools and the teaching profession

The Education Invasion Joy Pullmann, 2017-03-14 Most Americans had no idea what Common Core was in 2013 according to polls But it had been creeping into schools nationwide over the previous three years and children were feeling its effects They cried over math homework so mystifying their parents could not help them even in elementary school They read motley assortments of informational text instead of classic literature They dreaded the high stakes tests in unfamiliar formats that were increasingly controlling their classrooms How did this latest and most sweeping reform of American education come in mostly under the radar Joy Pullmann started tugging on a thread of reports from worried parents and frustrated teachers and it led to a big tangle of history and politics intrigue and arrogance She unwound it to discover how a cabal of private foundation honchos and unelected public officials cooked up a set of rules for what American children must learn in core K 12 classes and how the Obama administration pressured states to adopt them Thus a federalized education scheme took root despite legal prohibitions against federal involvement in curriculum Common Core and its testing regime were touted as an absolute game changer in public education yet the evidence so far suggests that kids are actually learning less under it Why then was such a costly and disruptive agenda imposed on the nation s schools Who benefits And how can citizens regain local self governance in education so their children s minds will be fed a more nourishing intellectual diet and be protected from the experiments of emboldened bureaucrats The Education Invasion offers answers and remedies
