direction Council Tax Benefit and parts of the Social Fund will be replaced with schemes designed and administered by local authorities This report focuses on implementation and the part that local authorities are playing It identifies four key areas that will be crucial to the successful implementation of the changes First these reforms require close interdepartmental working particularly between the Department for Communities and Local Government and DWP Second the Government needs to work with the Local Government Association to assess the cumulative impact of the entire programme on local authorities resources Third for the simplification of benefits the Government is switching the payment of housing support from the landlord directly to the claimant Housing associations may therefore face increased rent arrears and collection costs though the Government has agreed that this may be offset by excluding vulnerable tenants and an automatic switchback mechanism paying rent to the landlord when a tenant s arrears hit a threshold level In addition it is vital that DWP makes good on its assurances that the financial viability of housing associations will not be damaged by the welfare reforms Fourth there are concerns about the readiness of ICT systems specifically that the systems for fraud detection within UC were still at early development even though implementation is now advanced
