detailed critical introduction to Bolzano covering both his life and works **Little Buddhas** Vanessa R. Sasson,2013
Consideration of children in the academic field of Religious Studies is taking root but Buddhist Studies has yet to take notice
Little Buddhas brings together a wide range of scholarship and expertise to address the question of what role children have played in Buddhist literature in particular historical contexts and what role they continue to play in specific Buddhist contexts today The volume is divided into two parts one addressing the representation of children in Buddhist texts the other children and childhoods in Buddhist cultures around the world The ground breaking contributions in this volume challenge the perception of irreconcilable differences between Buddhist idealism and family ties Little Buddhas will be an indispensable resource for students and scholars of Buddhism and Childhood Studies and a catalyst for further research on the topic

Mehaffy, 2006 More than a decade in the making this is a textbook of architecture rich with design techniques and useful for every architect whether a first year student or experienced practicing architect The book teaches the reader how to design by adapting to human needs and sensibilities yet independently of any particular style It explains much of what people instinctively know about architecture and puts that knowledge for the first time in a concise understandable form There has not been such a book treating the very essence of architecture Preface by the Prince of Wales **Acts for Everyone, Part Two** N. T. Wright, 2008-02-14 Enlarged print edition now available Writing in an accessible and anecdotal style Tom Wright helps us to approach the rich and many sided story of the book of Acts Wright shows how the book builds on Luke's Gospel laying out the continuing work and teaching of the now risen and ascended Jesus in the power of the Spirit His writing captures the vivid way in which Luke's work draws us all into the story while leaving the ending open and challenging inviting Christians today to pick up and carry on the story as we in turn live our lives in the service of Jesus Tom Wright has undertaken a tremendous task to provide guides to all the books of the New Testament and to include in them his own translation of the entire text Each short passage is followed by a highly readable discussion with background information useful explanations

and suggestions and thoughts as to how the text can be relevant to our lives today A glossary is included at the back of the book The series is suitable for group study personal study or daily devotions

Realism

Reconsidered Michael Williams, 2007-11-15 Realism remains the most important and controversial vision of international politics But what does it mean to be a realist This collection addresses this key question by returning to the thinking of perhaps the most influential realist of modern times Hans J Morgenthau In analyses of issues ranging from political philosophy to international law to the impact of nuclear weapons and the challenges of American foreign policy the authors demonstrate that Morgenthau's thinking exemplifies a rich realist tradition that is often lacking in contemporary analyses of international relations and foreign policy At a time when realism is once again at the centre of both scholarly and political debates this book shows that the legacy of classical realism can enrich our understanding of world politics and contribute to its future direction

Don't Talk About Politics Sarah Stein Lubrano, 2025-05-15 Democracy is dying because we are clinging to a dangerous and outdated myth talking about politics can change people's minds It doesn't This provocative debut from a bold new voice combines a fascinating range of research to show us the psychological and sociological factors that really shape our politics Drawing from ancient philosophy to modern neuroscience and social science Dr Sarah Stein Lubrano reveals the surprising truth about how people think and behave politically From friendship to community organizing and social infrastructure she explores the actions that actually do change minds In a world where politics keeps getting more irrational dishonest violent and chaotic it's getting much harder to reach people with words alone So people who really care about democracy must ask how can we stop arguing and do the deep work to build stronger foundations for political life and a better world for us all
