

**Biological Materials Shipping Manual**Procedure: 2.16  
Version: 1.4Created: 1/10/14  
Revised: 7/14/15**A. Purpose**

Many biological materials, as well as dry ice and common preservatives, are regulated as *dangerous goods* when shipped in transit via ground, air, rail or vessel. This manual serves as a guidance document to aid Columbia University personnel with the shipping of dry ice and/or biological materials in compliance with University policies and the regulations promulgated by the US Department of Transportation (DOT) and International Air Transport Association (IATA).

Compliance with shipping regulations is critical to ensure the successful arrival of shipments, the safety of personnel involved in the shipping, handling, and receiving of shipments, and to avoid the severe civil and criminal penalties that can result from non-compliance.

**B. Applicability**

The requirements of this document apply to all Columbia University faculty, staff, or students involved in the preparation of shipments of dangerous goods. This includes:

- Taking an initial training and certification course, with recertification every two years
- Classifying biological materials for shipment,
- Determining appropriate packing instructions,
- Selecting materials for packaging,
- Packing the samples for shipment,
- Marking and labeling of packages,
- Completing and/or signing shipping documents,
- Securing packages prior to releasing them to a courier,
- Retaining shipping documents for two years

The scope of this manual is limited to the preparation of shipments of biological materials that do not require the completion of a Shipper's Declaration (see section **D. Definitions**). For shipments involving materials that require a Shipper's Declaration, such as Infectious Substances – Category A, please contact Environmental Health & Safety for assistance. Procedures and policies for the inter-campus transport of biological materials are also described.

**C. Responsibilities**

Principal Investigators are ultimately responsible for ensuring compliance with all shipping regulations for dangerous goods shipments sent from Columbia University laboratories, and for ensuring that any personnel to be involved in the preparation of dangerous goods shipments receive appropriate training. All dangerous goods shipments remain the responsibility of the sender throughout the period of transport until final receipt.

Adamus, Richard R. Mason, 1984      The Retailer's Guide to Loss Prevention and Security Donald J. Horan, 1996-11-27 The Retailer's Guide to Loss Prevention and Security is an introduction to retail security. It covers the basic principles, the various techniques and technologies available, and the retailer's interaction with the police, courts, and the law. Donald J. Horan, President of Loss Control Concepts Ltd, lends to this book his vast experience in the retail business and as a loss control consultant. Designated a Certified Protection Professional by the American Society for Industrial Security, he is also a member of the International Association of Professional Security Consultants (IAPSC). He has directed and managed retail loss prevention programs all over the U.S. for major department stores and specialty chains and has provided his expertise to a host of client companies during his tenure with the National Loss Prevention Bureau. Donald Horan's practical experience fills this book with all the tips, strategies, and procedures you need to create an effective loss prevention program. Owners, managers, and security managers of small and medium-sized retail operations, security agencies, individuals, institutions, and companies that give seminars on the topic, and personnel in law enforcement and forensics will find this an essential text. It will be extremely helpful to senior corporate executives to whom the loss prevention security function reports because it is their responsibility to determine whether loss prevention practices conform to the long-term goals of the company. Growing retail businesses and those contemplating future acquisitions for expansion will find the work invaluable. The same can be said for turn-around ventures or downsized businesses emerging from reorganization. The book would also be easily adaptable for use in undergraduate courses in an accredited criminal justice or retail management program.

Immerse yourself in the artistry of words with Experience Art with is expressive creation, **Policy And Procedures Manual For Receiving Dock** .
