**Munger Africana Library Notes** ,1971      **Third World Book Review** ,1987      **African Studies Review** ,1980      **The Bounds of Race** Dominick LaCapra,2018-08-06 The concept of race is central to one of the most powerful ideological formations in history Dominick LaCapra argues in his introduction to this volume and understanding the effects of that ideology and its intricate relations with issues of class and gender is one of the most pressing challenges to contemporary modes of thought The eleven essays

comprising *The Bounds of Race* confront this challenge with insight rigor and imagination The authors take on questions of language genre and politics with reference to African American Anglo American African South African Francophone North African British and Afro Hispanic texts Individual chapters discuss writings from an array of genres including homily autobiography the novel children s literature and political and scientific discourse Taken together the essays argue persuasively that the existing canon must be expanded that the protocols of interpretation must be transformed to make a prominent place for such issues as race and that the problem of interpretation cannot be posed in the absence of theoretically informed modes of historical investigation *The Bounds of Race* provides a subtle analysis of the variable role of racial ideologies and traces the interplay between hegemonic constraints and the strategies of resistance to them **MLA**

this book France s leading medical anthropologist takes on one of the most tragic stories of the global AIDS crisis the failure of the ANC government to stem the tide of the AIDS epidemic in South Africa Didier Fassin traces the deep roots of the AIDS crisis to apartheid and before that to the colonial period One person in ten is infected with HIV in South Africa and President Thabo Mbeki has initiated a global controversy by funding questionable medical research casting doubt on the benefits of preventing mother to child transmission and embracing dissidents who challenge the viral theory of AIDS Fassin

contextualizes Mbeki s position by sensitively exploring issues of race and genocide that surround this controversy Basing his discussion on vivid ethnographical data collected in the townships of Johannesburg he passionately demonstrates that the unprecedented epidemiological crisis in South Africa is a demographic catastrophe as well as a human tragedy one that cannot be understood without reference to the social history of the country in particular to institutionalized racial inequality as the fundamental principle of government during the past century **Drama and the South African State** Martin

Orkin,1991 This book examines how South African drama over the past several decades has constructed the subject and the landscape presented the body and sometimes sought to define a national culture
