

Strongly recommend that you prepare a handwritten summary of this assignment.

Statistical concepts such as standard errors or confidence intervals are not taught before you learn properties of normal distributions. In fact, it's important to first understand the normal distribution and then learn about errors in a population of study. In fact, the normal distribution is not a distribution of data, but a distribution of sample means. The normal distribution is not a distribution of data, but a distribution of sample means. The normal distribution is not a distribution of data, but a distribution of sample means.
