can develop young children's explicit and implicit comprehension skills regardless of their decoding ability. Offering an inclusive teaching and assessment approach that aligns with the Early Years Foundation Stage (EYFS) framework and supports the early adopter school initiative, it will help readers to guide children's use of picture reading for meaning strategies in preparation for more complex comprehension instruction in Year 1. The book also contains useful resources such as colour picture booklets and downloadable family workshop sessions to help guide parents in more effective picture book talk at home. It offers corresponding steps for planning teaching and assessing children's picture book talk, multisensory learning, self-questioning skills, and early reading for meaning. The methods and activities within this book specifically help to develop vocabulary, setting vocabulary, character vocabulary, general vocabulary, communication and language skills, critical thinking, and inference skills, metacognition, personal learning awareness, self-confidence, and self-regulation skills. Providing examples of practice, photocopiable resources, and step-by-step guidance for teaching key comprehension strategies and early self-regulation skills, this book is essential reading for all those who work with young children and wish to encourage a love of reading.

Writing Skills Ks1. Irene Merish, 2001. This volume comprises a set of teacher's notes and photocopiable student activities to help Key Stage 1 pupils improve their writing skills. **Teaching English 3-11** Cathy Burnett, Julia Myers, 2004-04-01. This title highlights aspects of progression and continuity in the teaching of English across the Foundation and Primary years and encourages readers to develop an understanding of key principles and the confidence to apply these appropriately to their classroom practice. Reading Wonders 1' 2006 Ed., **Jasper (non ICSE) CB 1** Jyotika Gill, The Jasper series has been especially designed as per the latest guidelines provided in the National Education Policy. The books are designed to expose learners to real-life situations, enabling them to experience and respond to language in different scenarios. The series aims at the development of communicative proficiency through a graded syllabus of structural patterns and the rich and varied contexts of English literature. **Teaching Across the Early Years 3-7** Hilary Cooper, Chris Sixsmith, 2004-11-23. This practical and accessible book explores ways of developing continuity and coherence in children's learning from three to seven years old. It is based around three case studies in which tutors on Initial Teacher Training courses worked with early years practitioners in three different pre-school settings, each linked to a primary school. The book describes how they successfully managed to plan and teach integrated themes across the age range in the context of the requirements of the Foundation Stage and the National Curriculum. Each case study has a different focus: science, design, and technology; the arts, including an ICT strand; the humanities, including a physical education strand. English and mathematics dimensions run through each theme. The book is alive with discussion of children's art, language, drama, and music, captured as field notes, writing, drawing, and as video tape. Each chapter concludes with suggestions of ways in which readers can develop the ideas in their own contexts. This book will be invaluable reading for students on Early Years courses, Early Years practitioners and tutors, and mentors in early childhood education.
