

Examples of SLO Growth Targets

Advanced Tiered Growth Target:

- Students have a tiered target based on their preassessment.
- Divide students into three or more categories (low, mid, advanced).
- Students have to reach the greater of the two targets.

• *Example:*

Pre-Assessment Score	Growth Score
0–45 points	65 or +35 points, whichever is greater
46–70 points	75 or +15 points, whichever is greater
70+ points	85 or +14 points, whichever is greater

Defensible Teacher Evaluation Rick

Stiggins, 2014-03-11 Meaningful teacher evaluation starts with visible student growth Annual standardized test scores cannot provide evidence of student growth needed to evaluate teacher performance But consider student growth in the form of evidence derived from classroom assessment and you re on to something For assessment expert Rick Stiggins this can form the basis for a truly productive teacher evaluation strategy This revolutionary book helps you bring classroom assessment to bear for real school improvement with A plan for teacher evaluation based in part on dependable evidence of student growth Strategies for improving the assessment literacy of teachers and school leaders Five steps for developing and implementing productive local district assessment systems Practical tools that teachers and their evaluators can put to use immediately In this era of aggressive teacher evaluation reform where teachers are charged with preparing ALL students to master 21st century proficiencies the measurement of teacher success must start where learning happens in the classroom Developing a fair practical and effective teacher evaluation system is like climbing a high mountain it s impossible until someone finds a route That s what Rick does in this book He identifies the immense challenges associated with using evidence on student learning as the principal criteria in teacher evaluation and then offers practical guidance for overcoming those challenges He hasn t made the climb easy but he shows us the way Thomas R Guskey Professor of Educational Psychology University of Kentucky Rick Stiggins builds a compelling case for the development of a solid foundation of assessment competence throughout our educational system Linda Darling Hammond Charles E Ducommun Professor of Education Stanford University

Meeting the Challenges to Measurement in an Era of Accountability Henry Braun, 2016-01-29 Under pressure and support from the federal government states have increasingly turned to indicators based on student test scores to evaluate teachers and schools as well as students themselves The focus thus far has been on test scores in those subject areas where there is a sequence of consecutive tests such as in mathematics or English language arts with a focus on grades 4-8 Teachers in these subject areas however constitute less than thirty percent of the teacher workforce in a district Comparatively little has been written about the measurement of achievement in the other grades and subjects This volume seeks to remedy this imbalance by focusing on the assessment of student achievement in a broad range of grade levels and

subject areas with particular attention to their use in the evaluation of teachers and schools in all It addresses traditional end of course tests as well as alternative measures such as portfolios exhibitions and student learning objectives In each case issues related to design and development psychometric considerations and validity challenges are covered from both a generic and a content specific perspective The NCME Applications of Educational Measurement and Assessment series includes edited volumes designed to inform research based applications of educational measurement and assessment Edited by leading experts these books are comprehensive and practical resources on the latest developments in the field The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
