If your story doesn't quite fit, just indicate at the end of the column where the story will continue.

When it comes to placement or design, place your stories first. Build your newspaper around the stories, resizing the pictures so that your text ends where you want it to.

Again, design around your text or the stories. You can enter the text directly into the text boxes here or write it in a word processor and copy the text to these boxes.

Every page template will have additional hints and tips to read. Many of the templates will have themes you can use. Nevertheless, you can mix and match if you want. This is your project, so go to town!

When replacing pictures in these templates, consider using pictures that are similar in size to maintain the integrity of the template design.

This template is designed for news and community as well as newsletter purposes.

Naturally, if you decide to use this or any other template for any other purpose, you most certainly can do that as well.

The neat thing about our templates is that you can mix and match them. If you find a template page from another category that works for you, then by all means, use it!

Numeracy in Authentic Contexts Maura Sellars,2017-10-25 This book is based on the notion that there are many ways in which mathematics learning can be achieved for students and that not all of them are focused on the mathematics classroom It explores the foundational numeracy principles of the non mathematical subject areas and aligns these to the Australian numeracy learning continuum It demonstrates in detail the extent to which numeracy competencies underpin successful learning in all the subject areas of the curricula It validates a focus of developing numeracy competencies through learning in the arts science and other discipline areas with which school students to engage with in order develop holistically but which are not subjected to national assessment practices It is developed around the notion of praxis putting theory into practice in order to respond to the urgent need for students to be supported in their efforts to increase their numeracy capabilities in a world where extensive amounts of new information are often presented in graphical or data based formats Additionally it offers perspectives on developing all students capacities to become numerate in school contexts and presents inclusive differentiated lesson examples as an alternative way of exploring numeracy in the context of teaching and learning in real world classroom contexts
