Good,2018-10-25 Teachers at the Table is based on the simple premise that policy matters in education and teachers matter to policy Policy reflects and shapes society s beliefs about schools teachers children learning and society as well as the power structures embedded in our communities and decision making processes If policy is a public response to perceived social problems it matters who is at the table when the problems are defined the agendas set and the policy itself designed Although teachers may be central to the implementation of education policy they are marginal to the design of it

especially around issues of teaching and learning In short teachers are not at the table This is important because the lack of teacher voice in educational policymaking disconnects the goals and design of education policy from the actual lived challenges of implementing it This book draws on a qualitative case study with both practicing and pre service teachers involved in a policy advocacy professional development program Findings from the study illustrate norms and routines the nature of teachers work hierarchy of authority and professional status that act as barriers to teacher involvement in policy creation The book then follows with clear examples of teacher pushback against these same norms and details the conditions under which teachers can interact in authentic ways with decision making structures in schools and policy Teachers at the Table is a unique examination into these dynamics informing the critical efforts of teacher leaders to participate in educational policy creation and helps us to understand and more importantly act upon the structures around teachers to better support their involvement in policymaking with the ultimate goal of producing better educational policy that is more relevant and responsive to the youth educators families and communities it serves
