Nextdoor Model :

The Polyamorists Next Door Elisabeth Sheff, 2013-11-26 Marriage and monogamy are not what they used to be and today many couples are opting to start families before getting married or deciding not to get married at all. At the same time, gay couples in states that recognize same sex marriage are getting married in droves. Some people prefer non monogamy and have relationships that include swinging and polyamory. The landscape of American marriage and relationships is changing and a variety of family systems are developing and becoming more common. The Polyamorists Next Door introduces polyamorous families in which people are free to pursue emotional, romantic and sexual relationships with multiple people at the same time, openly and with support from their partners, sometimes forming multi partner relationships or other arrangements that allow for emotional and sexual freedom within the family system. In colorful and moving details, this book explores how polyamorous relationships come to be, grow and change, manage the ins and outs of daily family life and cope with the challenges they face both within their families and from society at large. Using polyamorists' own words, Dr. Elisabeth Sheff examines polyamorous households and reveals their advantages, disadvantages and the daily lives of those living in them. While polyamorous families are increasingly common, fairly little is known about them outside of their own social circles or of the occasional media sensationalism. This book provides information that will be useful for professionals with polyamorous clients, educators who wish to understand or teach about polyamory and especially people who wish to better understand polyamory themselves or explain it to their potential partners, adult children or in laws. **1960s Model Girl**

Felice McDowell, 2025-06-26 Examining histories of post war Britain, fashion modelling, photography and popular culture. **1960s Model Girl** Narrative Identities in Fashion Time and History explores model girl narratives found throughout media, fashion magazines, advice literature, auto biographies and fashion exhibits. Introducing theories of history, life writing and narrative identity, **1960s Model Girl** demonstrates how these can be applied to the study of fashion and shows how fashion studies opens new pathways to understanding identity and emergent British femininities. Drawing on a wealth of archival research, case studies include teen fashion magazines *Petticoat* and *Model Girl*, advice writing of model agent Lucie Clayton and fashion journalist Suzy Menkes' autobiographies of fashion models Jean Shrimpton and Twiggy and the Mary Quant exhibition at the Victoria and Albert Museum, London, 2019-2020. This book provides an intricate study of a varied and manifold figure whose impact and influence spreads further afield than a particular time, place and professional context. Closely attending to a range of model girl narratives, **1960s Model Girl** illuminates the cultural past and in turn sheds light on our own historical present. The Government Next Door Luigi Tomba, 2014-08-21 Chinese residential communities are places of intense governing and an arena of active political engagement between state and society In The Government Next Door Luigi Tomba investigates how the goals of a government consolidated in a distant authority materialize in citizens everyday lives Chinese neighborhoods reveal much about the changing nature of governing practices in the country Government action is driven by the need to preserve social and political stability but such priorities must adapt to the progressive privatization of urban residential space and an increasingly complex set of societal forces Tomba s vivid ethnographic accounts of neighborhood life and politics in Beijing Shenyang and Chengdu depict how such local translation of government priorities takes place Tomba reveals how different clusters of residential space are governed more or less intensely depending on the residents social status how disgruntled communities with high unemployment are still managed with the pastoral strategies typical of the socialist tradition while high income neighbors are allowed greater autonomy in exchange for a greater concern for social order Conflicts are contained by the gated structures of the neighborhoods to prevent systemic challenges to the government and middle class lifestyles have become exemplars of a new responsible form of citizenship At times of conflict and in daily interactions the penetration of the state discourse about social stability becomes clear

The Chango Next Door to the Días Wendy Cheng, 2013-11-01 U.S. suburbs are typically imagined to be predominantly white communities but this is increasingly untrue in many parts of the country Examining a multiracial suburb that is decidedly nonwhite Wendy Cheng unpacks questions of

how identity especially racial identity is shaped by place She offers an in depth portrait enriched by nearly seventy interviews of the San Gabriel Valley not far from downtown Los Angeles where approximately 60 percent of residents are Asian American and more than 30 percent are Latino At first glance the cities of the San Gabriel Valley look like stereotypical suburbs but almost no one who lives there is white The Changs Next Door to the D azes reveals how a distinct culture is being fashioned in and simultaneously reshaping an environment of strip malls multifamily housing and faux Mediterranean tract homes Informed by her interviews as well as extensive analysis of three episodic case studies Cheng argues that people s daily experiences in neighborhoods schools civic organizations and public space deeply influence their racial consciousness In the San Gabriel Valley racial ideologies are being reformulated by these encounters Cheng views everyday landscapes as crucial terrains through which racial hierarchies are learned instantiated and transformed She terms the process regional racial formation through which locally accepted racial orders and hierarchies complicate and often challenge prevailing notions of race There is a place specific state of mind here Cheng finds Understanding the processes of racial formation in the San Gabriel Valley in the contemporary moment is important in itself but also has larger value as a model for considering the spatial dimensions of racial formation and the significant demographic shifts taking place across the national landscape

Shafranek, 2021-09-29 In the United States politics has become tribal and personalized The influence of partisan divisions has extended beyond the political realm into everyday life affecting relationships and workplaces as well as the ballot box To help explain this trend we examine the stereotypes Americans have of ordinary Democrats and Republicans Using data from surveys experiments and Americans own words we explore the content of partisan stereotypes and find that they come in three main flavors parties as their own tribes coalitions of other tribes or vehicles for political issues These different stereotypes influence partisan conflict people who hold trait based stereotypes tend to display the highest levels of polarization while holding issue based stereotypes decreases polarization This finding suggests that reducing partisan conflict does not require downplaying partisan divisions but shifting the focus to political priorities rather than identity a turn to what we call responsible partisanship **The Prepper Next Door** Charlie Palmer, 2012 A book for practical preppers those planning for emergencies or disasters Discusses food storage water purification and collection sanitation first aid bug out bags bug out vehicles home and self defense firearms and shooting providing lights and utilities and aspects of home construction AUTHOR BIO Charlie Palmer became a prepper back in the early 1980s when he first read The Survivor newsletter Today he recommends people make modest preparations for natural disasters and other emergencies His interests include do it yourself repairs shooting welding machining and outdoor survival The Millionaire Next Door Thomas J. The Real Girl Next Door Denise Richards, 2012-04-10 From former model actress and reality TV star Richards It s Complicated comes a raw honest and uplifting memoir *Confucius Lives Next Door* T.R. Reid, 2013-04-24 Those who ve heard T R Reid s weekly commentary on National Public Radio or read his far flung reporting in National Geographic or The Washington Post know him to be trenchant funny and cutting edge but also erudite and deeply grounded in whatever subject he s discussing In *Confucius Lives Next Door* he brings all these attributes to the fore as he examines why Japan China Taiwan and other East Asian countries enjoy the low crime rates stable families excellent education and civil harmony that remain so elusive in the West Reid who has spent twenty five years studying Asia and was for five years The Washington Post s Tokyo bureau chief uses his family s experience overseas including mishaps and misapprehensions to look at Asia s social miracle and its origin in the ethical values outlined by the Chinese sage Confucius 2 500 years ago When Reid his wife and their three children moved from America to Japan the family quickly became accustomed to the surface differences between the two countries In Japan streets don t have names pizza comes with seaweed sprinkled on top and businesswomen in

designer suits and Ferragamo shoes go home to small concrete houses whose washing machines are outdoors because there's no room inside. But over time Reid came to appreciate the deep cultural differences helped largely by his courtly white-haired neighbor Mr. Matsuda who personified ancient Confucian values that are still dominant in Japan. Respect, responsibility, hard work, these and other principles are evident in Reid's witty perfectly captured portraits from that of the school his young daughters attend in which the students maintain order and scrub the floors to his depiction of the corporate ceremony that welcomes new employees and reinforces group unity. And Reid also examines the drawbacks of living in such a society such as the ostracism of those who don't fit in and the acceptance of routine political bribery. Much Western ink has been spilled trying to figure out the East but few journalists approach the subject with T. R. Reid's familiarity and insight. Not until we understand the differences between Eastern and Western perceptions of what constitutes success and personal happiness will we be able to engage successfully politically and economically with those whose moral center is governed by Confucian doctrine. Fascinating and immensely readable, *Confucius Lives Next Door* prods us to think about what lessons we might profitably take from the Asian Way and what parts of it we want to avoid.
