Information Politics, Protests, and Human Rights in the Digital Age Mahmood Monshipouri, 2016-06-09 We live in a highly complex and evolving world that requires a fuller and deeper understanding of how modern technological tools ideas practices and institutions interact and how different societies adjust themselves to emerging realities of the digital age This book conveys such issues with a fresh perspective and in a systematic and coherent way While many studies have explained in depth the change in the aftermath of the unrests and uprisings throughout the world they rarely mentioned the need for constructing new human rights norms and standards This edited collection provides a balanced conceptual framework to demonstrate not only the power of autonomous communication networks but also their limits and the increasing setbacks they encounter in different contexts

Triumph and Despair Mehran Kamrava, 2022-11-01 Triumph and Despair tells the dramatic story of post revolutionary Iran s first four decades from its establishment in 1979 until today The revolutionary coalition that overthrew the monarchy was at once democratic populist and Islamic The Islamists and the Khomeinists in particular were able to capitalize effectively on prevailing conditions on the ground to frame the new republic s constitution capture nascent institutions and consolidate their power by eliminating opponents through a reign of terror Once the war with Iraq was over and after the death of the new order s charismatic founder Ayatollah Khomeini the Islamic Republic was consolidated first by tweaking its institutional arrangements and then by fostering economic development and post war reconstruction A reformist interlude then followed reversed unceremoniously by a return of populism and a broader authoritarian retrenchment Today Iran remains at odds with itself its economy too deeply political to yield meaningful developmental results its foreign relations too conflicted to allow it a productive place in the community of nations As Iran s nationalities and its women and youth carve out spaces for themselves in the broader narrative competing identities religious national and otherwise abound After forty years the Islamic Republic remains a country in search of itself

the historical legacy of Gulf security and the fundamental domestic and international vulnerabilities of the various states in the region This approach proves important in light of the recent efforts by Gulf states to recast their position in the international arena trying to peddle an image of self assertiveness and autonomy in the security sphere These new diplomatic stances do not seem to be borne out by their current security policies that are marked by apparent continuity with past practices In particular the new Gulf Asia nexus and the claims by Gulf monarchies that regional confidence building measures are appearing on the horizon are placed under critical scrutiny This is done by a sobering examination of the balance of threat in the region the historical amity enmity patterns and the evolving American stance A shorter modified version of this book was previously published as a special issue of the British Journal of Middle Eastern Studies *Global Cold War Literature* Andrew Hammond,2011-12-21 In countries worldwide the Cold War dominated politics society and culture during the second half of the twentieth century *Global Cold War Literatures* offers a unique look at the multiple ways in which writers from Asia Africa Europe and North and South America addressed the military conflicts revolutions propaganda wars and ideological debates of the era While including essays on western European and North American literature the volume views First World writing not as central to the period but as part of an international discussion of Cold War realities in which the most interesting contributions often came from marginal or subordinate cultures To this end there is an emphasis on the literatures of the Second and Third Worlds including essays on Latin American poetry Soviet travel writing Chinese autobiography African theatre North Korean literature Cuban and eastern European fiction and Middle Eastern fiction and poetry With the post Cold War era still in a condition of emergence it is essential that we look back to the 1945 89 period to understand the political and cultural forces that shaped the modern world The volume s analysis of those forces and its focus on many of the hot spots Afghanistan Iran North Korea that define the contemporary war on terror make this an essential resources for those working in Postcolonial American and English Literatures as well as in History Comparative Literature European Studies and Cultural Studies *Global Cold War Literatures* is a suitable companion volume to Hammond s *Cold War Literature Writing the Global Conflict* also available from Routledge **Challenging America's Global Preeminence** Thomas Ambrosio,2017-07-05 Examining the shifts in Russian foreign policy and their potential impact on the status and influence of the United States in the international system this outstanding volume examines why the Kremlin initially sought an alliance with the United States and the internal and external reasons why such a policy was unsustainable In particular it looks for an explanation for the post Cold War vacillations in Russian foreign policy Russia made several decisions which were perceived domestically as being unacceptable capitulations to American interests Consequently a pro Western foreign policy became incompatible with Russian political culture The rapprochement following 9 11 was destined to be temporary due to the decision by the Bush administration to invade Iraq Contributing to the fields of international relations and comparative foreign policy this study provides a fresh approach to the balance bandwagon issue
