Fig. 1. The diagram shows the sequence of steps in the proposed approach. The first step is to identify the key factors that influence the system. The second step is to develop a model that represents the system. The third step is to simulate the model. The fourth step is to analyze the results of the simulation. The fifth step is to validate the model. The sixth step is to implement the model. The seventh step is to monitor the system. The eighth step is to evaluate the system. The ninth step is to improve the system. The tenth step is to document the system.
