The emphasis of this textbook is on how sales management gets done. You will find contemporary materials in the content and application exercises such as in the end of chapter questions, role plays, caselets, and cases. We developed the instructor materials in such a way that they facilitate how instructors teach the content using various modes e.g. face to face, online, or hybrid models. To reflect the textbook's new organization, we provided an overview of the sales function and the role it plays in a firm's overall strategy and discuss industry priorities e.g. lead generation and cross-selling. We expanded our content related to B2B sales and discuss the different roles salespeople play within those channels. In addition to introducing traditional leadership approaches, we refocused Chapter 2 on leadership development early in one's career and introduced the emergent leadership approach.

It should be required reading for every sales leader. Bob Kelly, Chairman, The Sales Management Association. A must-read for managers who want to have a greater impact on sales force performance.
