**Recolonizing Africa** Mariam Mniga, 2024-03-19

Explaining how the legacy of colonialism and the nature of the liberal economy play a significant role in the development of Africa today keeping Africa poor and dependent this book explains how trade liberalization deregulation and privatization had opened doors for the New Scramble for Africa Green technology and the high demand for electronics have intensified Africa's role as a supplier of raw materials natural resources and cheap labor and as a large market of more than one billion people in the global economy This unique ethnographic study with elements of autoethnography starts with the author's journey to Bulyanhulu Tanzania one of the largest gold mines in Africa and moves to a broader analysis that reveals the systemic violence of resource extraction Focus groups interviews and observations demonstrate the lack of distributive justice and intersectional equality in the process of land acquisition and resource extraction described by villagers in racialized and gendered terms as exploitative and part of a racist system that fails to provide a fair distribution of benefits to local people Recolonizing Africa examines resource conflicts among local people governments and transnational corporations

from Europe North America and Asia revealing how global systemic violence and irresponsible business practices precipitate economic inequality between African and financially rich nations threatening peace and security indigenous rights and the environment     *Plunkett's InfoTech Industry Almanac* Jack W. Plunkett,2008-02 Plunkett s InfoTech Industry Almanac presents a complete analysis of the technology business including the convergence of hardware software entertainment and telecommunications This market research tool includes our analysis of the major trends affecting the industry from the rebound of the global PC and server market to consumer and enterprise software to super computers open systems such as Linux web services and network equipment In addition we provide major statistical tables covering the industry from computer sector revenues to broadband subscribers to semiconductor industry production No other source provides this book s easy to understand comparisons of growth expenditures technologies imports exports corporations research and other vital subjects The corporate profile section provides in depth one page profiles on each of the top 500 InfoTech companies We have used our massive databases to provide you with unique objective analysis of the largest and most exciting companies in Computer Hardware Computer Software Internet Services E Commerce Networking Semiconductors Memory Storage Information Management and Data Processing We ve been working harder than ever to gather data on all the latest trends in information technology Our research effort includes an exhaustive study of new technologies and discussions with experts at dozens of innovative tech companies Purchasers of the printed book or PDF version may receive a free CD ROM database of the corporate profiles enabling export of vital corporate data for mail merge and other uses
