Scott C. Dulebohn

Newton S Fallen Hero:

Newton's Fallen Hero J. Miller, 2015-02-07 This book is a biography of a young and single man from South Alabama It s about him joining the Confederate Army in 1862 during the Civil War and being assigned to Company E of the 15th Alabama Infantry Regiment His unit is assigned to General Stonewall Jackson s Corps in Virginia Read about the battles in which this young man and his companions participated **History of Newton, Massachusetts** Samuel Francis Smith, 1880

Forgotten Heroes William Wilbanks, 1996-06-15 **Memoir of Augustus De Morgan** Sophia Elizabeth De Morgan, 1882 *Fallen Heroes* Richard H. Knowles, 1996 **The Open Court** , 1915 **The Open Court** Paul Carus, 1915

Newton Patricia Fara, 2002 His very surname has acquired brand name like associations with science genius and Britishness Apple Computers used it for an ill fated companion to the Mac and Margaret Thatcher has his image in her coat of arms **The Newton Papers** Sarah Dry, 2014-04-11 When Isaac Newton died in 1727 without a will he left behind a wealth of papers that when examined gave his followers and his family a deep sense of unease Some of what they contained was wildly heretical and alchemically obsessed hinting at a Newton altogether stranger and less palatable than the one enshrined in Westminster Abbey as the paragon of English rationality These manuscripts had the potential to undermine not merely Newton s reputation but that of the scientific method he embodied They were immediately suppressed as unfit to be printed and aside from brief troubling glimpses spread across centuries the papers would remain hidden from sight for more than seven generations In *The Newton Papers* Sarah Dry illuminates the tangled history of these private writings over the course of nearly three hundred years from the long span of Newton s own life into the present day The writings on subjects ranging from secret alchemical formulas to impassioned rejections of the Holy Trinity would eventually come to light as they moved through the hands of relatives collectors and scholars The story of their disappearance dispersal and rediscovery is populated by a diverse cast of characters who pursued and possessed the papers from economist John Maynard Keynes to controversial Jewish Biblical scholar Abraham Yahuda Dry s captivating narrative moves between these varied personalities depicting how as they chased the image of Newton through the thickets of his various obsessions these men became obsessed themselves with the allure of defining the true Newton Dry skillfully accounts for the ways with which Newton s pursuers have approached his papers over centuries Ultimately *The Newton Papers* shows how Newton has been made and re made throughout history by those seeking to reconcile the cosmic contradictions of an extraordinarily complex man

Narratives of Crisis Matthew Seeger, Timothy L. Sellnow, 2016-06-08 How did you first hear about 9 11 What images come to mind when you think of Hurricane Katrina How did your community react to the Sandy Hook Elementary School shooting You likely have your own stories about these tragic events Yet as a society we rarely stop to appreciate the narratives that follow a crisis and their tremendous impact This book examines the fundamental role that narratives play in catastrophic events A crisis creates a communication vacuum which is then populated by the stories of those who were

directly affected as well as crisis managers, journalists, and onlookers. These stories become fundamental to how we understand a disaster, determine what should be done about it, and carry forward our lessons learned. Matthew W. Seeger and Timothy L. Sellnow outline a typology of crisis narratives: accounts of blame, stories of renewal, victim narratives, heroic tales, and memorials. Using cases to illustrate each type, they show how competing accounts battle for dominance in the public sphere, advancing specific organizational, social, and political changes. *Narratives of Crisis* improves our understanding of how consensus forms in the aftermath of a disaster, providing a new lens for comprehending events in our past and shaping what comes from those in our future.
