Claim:

There are different aquatic systems with diverse organisms.

Evidence	Reasoning/Justification
Aquatic ecosystems have abiotic - temp, light, salinity, depth	Different organisms can tolerate different factors
Some organisms prefer fresh water vs. saltwater. Bull sharks + manatees tolerate both	Bull sharks and manatees are very different, but tolerate same conditions
Depth reduces light and increases pressure. Organisms deal with this differently.	Many types of adaptations exist to survive in these conditions
The geography of an aquatic environment can determine the life forms present.	Continental shelf gets lots of light, so there's many living things. Not so in the abyss.
Photosynthesis takes place in the neritic zone.	It is the most productive area of the ocean. Plankton are base of food chain.
Metabolism is affected by temp. Many species are cold-blooded.	Organisms can migrate or must have adaptations to survive.

Sarantakes, 2012-09-26 Forever known for its blazing cinematic image of General George S Patton portrayed by George C Scott addressing his troops in front of a mammoth American flag Patton won seven Oscars in 1971 including those for Best Picture and Best Actor In doing so it beat out a much ballyhooed M A S H irreverent darling of the critics and grossed 60 million despite an intense anti war climate But as Nicholas Evan Sarantakes reveals it was a film that almost didn't get made Sarantakes offers an engaging and richly detailed production history of what became a critically acclaimed box office hit He takes readers behind the scenes even long before any scenes were ever conceived to recount the trials and tribulations that attended the epic efforts of producer Frank McCarthy like Patton a U S Army general and Twentieth Century Fox to finally bring Patton to the screen after eighteen years of planning Sarantakes recounts how filmmakers had to overcome the reluctance of Patton's family copyright issues with biographers competing efforts for a biopic and Department of Defense red tape He chronicles the long search for a leading man including discussions with Burt Lancaster John Wayne and even Ronald Reagan before settling on Scott a brilliant actor who brought to the part both enthusiasm for the project and identification with Patton's passionate persona He also tracks the struggles to shoot the movie with a large multinational cast huge outlays for military equipment and filming in six countries over a mere six months And he provides revealing insider stories

concerning for example Scott's legendary drinking bouts and the origins of and debate over his famous opening monologue. Drawing on extensive research in the papers of Frank McCarthy and director Franklin Schaffner, studio archives records of the Academy of Motion Picture Arts and Sciences, contemporary journalism and oral histories, Sarantakes ultimately shows us that Patton is more than just one of the best war films ever made. Culturally, it also spoke to national ideals while exposing complex truths about power in the mid twentieth century.
