Référencement, e-marketing et visibilité web Fred Colantonio, 2013-12-11 Le plus beau site web du monde est inutile s'il est introuvable. Les internautes sont pressés et exigeants, la concurrence nombreuse et organisée. Comment devenir meilleur et plus visible en exploitant des techniques simples ? À travers 30 pratiques, l'auteur répond à 2 préoccupations : Comment vous trouver quand on vous cherche ? Comment être visible là où on ne vous attend pas ? Construit principalement autour du référencement naturel et de la présence dans les moteurs de recherche, ce livre vous offre également un aperçu des techniques payantes de marketing. En conclusion, l'exploitation professionnelle des réseaux sociaux est abordée avec en corollaire la gestion de l'e-réputation. Un guide qui vous aidera dans votre utilisation professionnelle du web en vue de promouvoir votre business ou celui de votre entreprise.

Le média humain Ludovic Boursin, Laetitia Puyfaucher, 2011-07-07 Avec les réseaux sociaux, les collaborateurs sont devenus de puissants metteurs de communication. Chaque jour, ils changent de statut, de tweets et de commentaires. Tout est on. Plus rien n'est off. Peut-on ignorer ce phénomène ? Faut-il le sanctionner ou au contraire l'encourager ? Pour la première fois, un livre dresse un panorama complet des conséquences de l'activité grandissante des collaborateurs sur les réseaux sociaux : impacts en communication interne et externe, conséquences managériales, enjeux juridiques et sociaux. Avec le média humain, les auteurs invitent à repenser en profondeur la circulation de l'information et les habitudes de collaboration dans l'entreprise. Regards croisés de deux professionnels de la communication : l'un en agence, l'autre chez l'annonceur, ce livre donnera chapitre après chapitre des réponses concrètes aux étudiants responsables de communication, responsables des ressources humaines, managers et dirigeants qui constatent chaque jour que les anciennes méthodes ne fonctionnent plus. Aujourd'hui, le collaborateur est devenu le premier des médias de l'entreprise. Ce livre vous explique

Employment Relations in France Alan Jenkins, 2006-04-18 This book is the fruit of a number of years of assimilating another culture and learning about the evolution of its institutions altogether an incredibly rich and rewarding experience I hope to pass on to the reader some of that richness in the belief that even in a globalizing context learning about other nations and cultures is more and more necessary The reasons and values behind this belief are perhaps evident but I am convinced that they bear repeating here To begin with the hasty generalizations that often lie behind the cynicism and ultimately the violence of ethnocentrism and xenophobia are still being aired today and still need to be fought even in unified and advanced regions of the world like Europe and the United States The historical and social sciences disciplines need to be solicited constantly in this combat even though they themselves are terrains of controversy and contestation I personally have not lost faith in their progressive potential and character Second my belief is that only through this process of appeal to these disciplines and their findings can we resist a dangerous contemporary slide into simplistic and sensationist pictures of the world viewpoints often associated with an implicit assumption that social and economic change are linear processes so how unfolding according to the same neat logic wherever they are at work
