*Nouvelle Théologie and Sacramental Ontology* Hans Boersma,2009-05-08 In the decades leading up to the Second Vatican Council the movement of nouvelle th ologie caused great controversy in the Catholic Church and remains a subject of vigorous scholarly debate today In Nouvelle th ologie and Sacramental Ontology Hans Boersma argues that a return to mystery was the movement s deepest motivation Countering the modern intellectualism of the neo Thomist establishment the nouvelle theologians were convinced that a ressourcement of the Church Fathers and of medieval theology would point the way to a sacramental reintegration of nature and the supernatural In the context of the loss suffered by both Catholics and Protestants in the de sacramentalizing of modernity Boersma shows how the sacramental ontology of nouvelle th ologie offers a solid entry point into ecumenical dialogue The volume begins by setting the historical context for nouvelle th ologie with discussions of the influence of significant theologians and philosophers like M hler Blondel Mar chal and Rousselot The exposition then moves to the writings of key thinkers of the ressourcement movement including de Lubac Bouillard Balthasar Chenu Dani lou Charlier and Congar Boersma analyses the most characteristic elements of the movement its reintegration of nature and the supernatural its reintroduction of the spiritual interpretation of Scripture its approach to Tradition as organically developing in history and its communion ecclesiology that regarded the Church as sacrament of Christ In each of these areas Boersma demonstrates how the nouvelle theologians advocated a return to mystery by means of a sacramental ontology

Luce Irigaray and the Question of the Divine Alison Martin,2000 This study examines Luce Irigaray s oeuvre through the question of the divine focusing upon her contention that women need a female divine if they are about to become subjects It attempts to demonstrate that the issue of the divine should not be considered as one aspect of her thought but that it is central to her philosophy of sexual difference Hence Irigaray s critique of patriarchy is presented as a critique of the dominance of a religion of masculinity that favours a single universal Her proposal for two sexed universal divines is explored along with her specific suggestions for female divine ideals Particular emphasis is given to her engagements with Marx Nietzsche and Hegelianism and to the mode of her adoption of Christianity The study applauds the radical profundity of Irigaray s philosophy of sexual difference while remaining critical of the universalism in her notion of

the divine for the doubt it casts upon the realization of a sexed culture
