*The Reception of Northrop Frye* ,2021-08-31 The widespread opinion is that Northrop Frye s influence reached its zenith in the 1960s and 1970s after which point he became obsolete his work buried in obscurity This almost universal opinion is summed up in Terry Eagleton s 1983 rhetorical question Who now reads Frye In *The Reception of Northrop Frye* Robert D Denham catalogues what has been written about Frye books articles translations dissertations and theses and reviews in order to demonstrate that the attention Frye s work has received from the beginning has progressed at a geomantic rate Denham also explores what we can discover once we have a fairly complete record of Frye s reception in front of us such as Hayden White s theory of emplotments applied to historical writing and Byron Alm n s theory of musical narrative The sheer quantity of what has been written about Frye reveals that the only valid response to Eagleton s rhetorical question is a very large and growing number the growth being not incremental but exponential

with foreign aid and developmental assistance For nearly seventy years India has sought its place in this global endeavour yet even today abject poverty and backwardness can be observed in districts in almost every state with the highest concentration of such districts found in the state of Bihar and a cultural enclave known as Mithila Development in India has been elusive because it is difficult to define and because the Western concepts of development and progress have no absolute equivalents within many non Western settings As a consequence development programmes often fail because they are unable to ask the right questions but equally important is the political economy derived from foreign aid For politicians there is no long term benefit to be derived from successful development In general foreign aid only serves to corrupt governments and politicians and in the end does very little for those who need help The struggling states of Bihar and Mithila serve as extreme examples of India s problems Development here has been thwarted by a hereditary landed aristocracy supported by religion casteism custom social stratification tradition and patterns of behaviour that can be traced back millennia In turn all these have been masterfully manipulated by co opted politicians who have turned politics into a veritable art form as this volume comprehensively demonstrates
