2025-26 TGT/PGT/GIC Geography Solved Papers. YCT Expert Team , 2025 26 TGT PGT GIC Geography Solved Papers 1008 995 E This book contains 166 sets of the previous year solved papers **Planning and Design for Sustainable Urban Mobility** Un-Habitat,2013-10-30 Urban transport systems worldwide are faced by a multitude of challenges Among the most visible of these are the traffic gridlocks experienced on city roads and highways all over the world The prescribed solution to transport problems in most cities has thus been to build more infrastructures for cars with a limited number of cities improving public transport systems in a sustainable manner However a number of challenges faced by urban transport systems such as greenhouse gas emissions noise and air pollution and road traffic accidents do not necessarily get solved by the construction of new infrastructure Planning and Design for Sustainable Urban Mobility argues that the development of sustainable urban transport systems requires a conceptual leap The purpose of transportation and mobility is to gain access to destinations activities services and goods Thus access is the ultimate objective of transportation As a result urban planning and design should focus on how to bring people and places together by creating cities that focus on accessibility rather than simply increasing the length of urban transport infrastructure or increasing the movement of people or goods Urban form and the functionality of the city are therefore a major focus of this report which highlights the importance of integrated land use and transport planning This new report of the United Nations Human Settlements Programme UN Habitat the world s leading authority on urban issues provides some thought provoking insights and policy recommendations on how to plan and design sustainable urban mobility systems The Global Report on Human Settlements is the most authoritative and up to date global assessment of human settlements conditions and trends Preceding issues of the report have addressed such topics as Cities in a Globalizing World The Challenge of Slums Financing Urban Shelter Enhancing Urban Safety and Security Planning Sustainable Cities and Cities and Climate Change **Innovation Beyond Technology** Sébastien Lechevalier,2019-08-02 The major purpose of this book is to clarify the importance of non technological factors in innovation to cope with contemporary complex societal issues while critically reconsidering the relations between science technology innovation STI and society For a few decades now innovation mainly derived from technological advancement has been considered a driving force of economic and societal development and prosperity With that in mind the following questions are dealt with in this book What are the non technological sources of innovation What can the progress of STI bring to humankind What roles will society be expected to play in the new model of innovation The authors argue that the majority of so called technological innovations are actually socio technical innovations requiring huge resources for financing activities adapting regulations designing adequate policy frames and shaping new uses and new users while having the appropriate interaction with society This book gathers multi and trans disciplinary approaches in innovation that go beyond technology and take into account the inter relations with social and human phenomena Illustrated

by carefully chosen examples and based on broad and well informed analyses it is highly recommended to readers who seek an in depth and up to date integrated overview of innovation in its non technological dimensions **General Studies Vol.2**
