Porsche 928 Automatic Transmission Problems:

Corvette Racing David Kimble, 2013-01-27 Chevy's Corvette is without question one of the most recognized sports cars in the world. Since its introduction at GM's Motorama, Corvettes have been favorites for fans and drivers in a wide variety of racing venues including endurance events, hillclimbs, Trans-Am drag racing, and GT Racing. For six decades, Corvettes have battled and defeated some of the biggest names in the sports car world: Ferrari, Porsche, Cobra, Jaguar, at storied road courses like Le Mans, Daytona, the Nürburgring, Sebring, and Laguna Seca. Beginning with the Real McCoy and Zora Arkus-Duntov special, raced at Sebring in 1956, this book draws on the history of factory-sponsored and private racing efforts, chronicling the history of the various Vettes that have been put to the test as racing machines. Noted automotive writer and renowned artist David Kimble delves deep into Vette's on-track history to provide the most thorough Corvette racing history ever published. *Corvette Racing* is illustrated with rare images from GM's media and design archives and complemented by Kimble's own stunning cutaway artwork. For Corvette and racing fans, this book is the definitive word on Corvette's nearly 60 years of competition.

Porsche 928 Brian Long, 2009 The 928 was originally designed as a replacement for the legendary 911, although traditionalists wouldn't let the air-cooled machine die, and the fuel crisis that occurred soon after the new Grand Tourer was launched meant its stunning performance on the road would not be matched in the showrooms. There was hardly a bad word written about the 928 or the beautifully engineered V8 that powered it when it was new, yet it always seemed to be in the shadow of its older six-cylinder stablemate. Today, over a decade since the last car was built, interest in this magnificent Porsche is increasing as people start to judge it in a different light. This painstakingly researched book looks at the birth of the 928 and then follows its progress around the world, taking in all the variants in all major markets, as well as a peak at its racing exploits. Illustrated with contemporary material throughout, it is the perfect guide to this eight-cylinder Porsche.

Case Problems in International Finance W. Carl Kester, Timothy A. Luehrman, 1993 This Harvard Casebook includes 40 cases covering a range of major topics in international finance. It can be used alone or with a core text suitable for an international finance course, and the cases are consistent with the growing demand for the international coverage in MBA programmes. The cases stimulate critical thinking, active discussion, analysis, and decision making, and most of them describe actual administrative situations. Lotus templates use financial statements from 10 cases so students can manipulate data to analyze information, and in-text explanations provide supplemental and background information.
