The Development of Grammar, Esther Rinke, Tanja Kupisch, 2011. This volume focuses on different aspects of language development. The contributions are concerned with similarities and differences between first and second language acquisition, the acquisition of sentence structure and functional categories, cross-linguistic influence in bilingual first language acquisition, as well as the relation between language acquisition, language contact and diachronic change. The recurrent topic of the volume is the link between linguistic variation and the limitation of structural variability in the framework of a well-defined theory of language. In this respect, the volume opens up new perspectives for future research.

Variation within and across Romance Languages, Marie-Hélène Côté, Eric Mathieu, 2014-12-15. This volume is a selection of twenty peer-reviewed articles first presented at the 41st annual Linguistic Symposium on Romance Languages (LSRL) held at the University of Ottawa in 2011. They are thematically linked by a broad notion of variation across languages, dialects, speakers, time, linguistic contexts and communicative situations. Furthermore, the articles address common theoretical and empirical issues from different formal, experimental or corpus-based perspectives. The languages analyzed belong to the main members of the Romance family: Spanish, Portuguese, Catalan, French, Ladin, Italian, Sardinian and Romanian, and a variety of topics across a wide spectrum of linguistic subfields, from phonetics to semantics, as well as historical linguistics, bilingualism and second language learning, is covered. By illustrating the richness and complementarity of subjects, methods and theoretical frameworks explored within Romance linguistics, significant contributions are made to both the documentation of Romance languages and to linguistic theory.

Manual of Brazilian Portuguese Linguistics, Johannes Kabatek, Albert Wall, 2022-10-24. This manual is the first comprehensive account of Brazilian Portuguese linguistics written in English, offering not only linguists but also historians and social scientists new insights gained from the intensive research carried out over the last decades on the linguistic reality of this vast territory. In the 20 overview chapters, internationally

renowned experts give detailed yet concise information on a wide range of language internal as well as external synchronic and diachronic topics. Most of this information is the fruit of large scale language documentation and description projects such as the project on the linguistic norm of educated speakers NURC, the project Grammar of spoken Portuguese and the project Towards a History of Brazilian Portuguese PHPB among others. Further chapters of high contemporary interest and relevance include the study of linguistic policies and psycholinguistics. The manual offers theoretical insights of general interest not least since many chapters present the linguistic data in the light of a combination of formal functional generative and sociolinguistic approaches. This rather unique feature of the volume is achieved by the double authorship of some of the relevant chapters thus bringing together and synthesizing different perspectives.

História do português brasileiro Marco Antonio Rocha Martins, Izete Lehmkuhl Coelho, Paulo Osório, 2025-02-17. This volume gathers contributions on the linguistic and sociocultural history of Brazilian Portuguese considering aspects related to the socio historical development of the Portuguese in of Brazil. It brings to the public the output of Project 3 History of Brazilian Portuguese from Europe to America of the Latin American Association of Linguistics and Philology ALFAL.

Formação de professores de português para falantes de outras línguas Viviane Bagio Furtoso, 2009.

O Português Afro-Brasileiro Dante Lucchesi, Alan N. Baxter, Ilza Ribeiro, 2009-01-01. Organizado pelos professores Dante Lucchesi e Ilza Ribeiro da Universidade Federal da Bahia e pelo professor Allan Baxter da Universidade de Macau, teve a colaboração de vários autores professores de outras universidades do mesmo Estado, além de mestres doutores e pós graduandos em geral oriundos daquela mesma universidade integrantes do grupo de pesquisa ali constituído e que vêm se dedicando ao estudo da realidade lingüística brasileira. Baseado na análise de amostras da fala de algumas comunidades rurais afro brasileiras isoladas no caso quatro comunidades do Estado da Bahia: Helvécia Cinzenta, Rio de Contas e Sapão, o livro apresenta os resultados obtidos pela aplicação de modelos teóricos que transitam da gerativa de princípios e parâmetros sociolingüística variacionista dentro daquela linha fecunda inaugurada pelo Prof. Tarallo nos anos oitenta. Dividido em duas partes, são apresentados na primeira os fundamentos teóricos e metodológicos nos quais se baseou a pesquisa e também o contexto sócio histórico das comunidades analisadas. Na segunda parte são isolados dezesseis pontos diagnósticos apropriando-me da expressão utilizada pelo Professor Aryon Rodrigues em sua análise comparativa das línguas tupi guarani pelos quais se pode tanto esboçar um retrato das variedades vernaculares das comunidades pesquisadas quanto levantar hipóteses já mais bem fundadas sobre a história do contato do português com as línguas africanas em território brasileiro.
