Kindergarten - Math Comments

1. _____ is still unable to count beyond 20. As that is a primary standard, we will need to work with your child more closely to ensure that he/she masters these skills. You can help him/her to master this skill by incorporating math into your playtime at home, and have him/her count larger quantities of fun items such as small snack foods or cards.
2. Your child is confusing the terms "beside", "between", and "below". You can help him/her to understand this concept using stuffed toys, and placing them according to the positional word that you want to demonstrate. Books that focus on position could also be helpful.
3. _____ is showing great progress in math. He/she is starting to understand time related terminology, and is finally able to really tell time! Way to go!
4. He/she finds it hard to differentiate between a circle and a triangle. Have your child identify shapes in your travels and play shape drawing and counting games that focus on those two shapes. We should see improvement with practice.
