Pour Une Lecture Profane Des Conflits:

Pour une lecture profane des conflits Georges Corm, 2015-04-16 C'est une réflexion de fond qui invite Georges Corm dans ce livre pour comprendre les logiques de guerre qui déchirent le Proche et le Moyen Orient depuis la fin de la guerre froide. Des conflits le plus souvent justifiés par la thèse débilissante du choc des civilisations et de la lutte contre le terrorisme transnational islamiste. Popularisée dans le monde entier, cette thèse a imposé une vision binaire du monde qui n'en finit plus d'enfler au point de fabriquer toujours plus de violence. Prolongeant les analyses historiques remarquablement documentées de ses livres précédents, Georges Corm donne ici les clés décisives pour comprendre les mécanismes ayant permis depuis les années 1990 de paralyser les oppositions aux guerres injustes et d'étouffer la pensée objective du réel et de ses complexités. La puissance des représentations médiatiques et académiques portées par l'imaginaire du retour du religieux, la manipulation de la mémoire et de l'histoire, l'instrumentalisation de prétendues valeurs politico-religieuses pour susciter des conflits, la relation perverse entre les intérêts géopolitiques de certains États et leur prétention d'endosser l'ordre international des idées, aux religieux, l'application sélective du droit international aux situations conflictuelles. D'où l'accent mis dans ce livre la fois très personnel et rigoureux sur la nécessité d'une lecture profane des conflits face aux fanatismes civilisationnels et sur la problématique de la laïcité et de la liberté dans sa version républicaine. **Arab Political Thought** Georges Corm, 2020

Explores the many facets of Arab political thought from the nineteenth century to the present day **Secularism in the Arab World** Aziz al-Azmeh, 2020-03-18 This book is a translation of Aziz al-Azmeh's seminal work *Al-Ilmaniya min mandhur mukhtalif* that was first published in Beirut in 1992. Both celebrated and criticised for its reflections on Arab secularisation and secularism in the modern history of the Arab World, it is the only study to date to approach its subject as a set of historical changes which affected the regulation of the social, political and cultural order and which permeated the concrete workings of society rather than as an ideological discussion framed from the outset by the assumed opposition between Islam and secularism. The author takes a comprehensive analytical perspective to show that an almost imperceptible yet real multifaceted and objective secularising process has been underway in the Arab world since the 1850s. The early onset was the result of adapting to systemic novelties introduced at the time and a reaction to the perceived European advance and local retardation. The need for meaningful reform and the actions taken in order to put in place a new organisation of state and society based on modern organisational and educational criteria rather than older religious traditions stemmed from the perceived weakness of Arab polities and from an internal drive to overcome this situation. The book follows these themes into the close of the 20th century, marked with the rise of Islamism. A preface to the English translation takes a retrospective look at the theme from the vantage point of social, political and intellectual issues of relevance today **The Baluch, Sunnism and the State in Iran** Stéphane A. Dudoignon, 2017-09-01 This fascinating study explores the emergence of a significant Sunni community on the margins of Shia Iran and delineates a Sunni arc stretching from Central Asia southwards through

Decolonising the Mediterranean Gabriele Proglia, 2017-03-07

Decolonising the Mediterranean means first and foremost investigating how the legacy of colonial rule over bodies and land has been used by other entities and powers to impose new forms of hegemony after the fall of empires and European powers. It means denouncing and dissecting the tools employed in the production of new geometries of power in the global Mediterranean as well as in the farthest most recondite corners of the Mediterranean World. Decolonising the Mediterranean is an epistemological practice of border dismantling and scrutiny of the ways in which powers overlap and intertwine. The multiplication of the border is investigated in this volume from an in-between position, namely a specific positionality of subjectivities in order to connect the global and local and address Mediterranean issues with a transnational approach. Decolonising the Mediterranean means thinking of the Mediterranean as a space of investigation beyond its geographical boundaries. Finally, it requires deconstructing the power relations at play, viewing the Mediterranean as an excess space of signification in order to reconsider the past and present stories and subjectivities erased by Eurocentric nationalist historical discourse. In this sense, the Mediterranean may then be more than a method, a matter of politics or a space without borders where the future can be reinvented from the bottom up. This volume is structured into six chapters, each written by a different author, focusing on a single North African, Maghreb and Mashrek country's colonial legacy to investigate borders in a transnational perspective. While the research directions and topics of investigation adopted here are different, they can all be situated on the boundary line described above, and each chapter suggests a specific path for decolonising knowledge. The

Neighbours of the European Union's Neighbours Sieglinde Gstöhl, Erwan Lannon, 2016-02-24. Should the European Neighbourhood Policy stop at the borders of the European Union's immediate neighbouring countries? This book is the first full-length study of the neighbours of the EU's neighbours, a concept originally introduced by the European Commission with reference to Saharan Africa, the Middle East and Central Asia. These regions in the EU's broader neighbourhood are often perceived as an arc of crisis from which manifold challenges emanate for Europe. This timely book takes stock of the state of the EU's cooperation with the neighbours of its neighbours and explores how the concept might help promote security, stability and prosperity beyond the countries which are formally part of the European Neighbourhood Policy. How can the EU create bridges between these regions? What instruments does the EU have at its disposal and how can it link them in order to respond to the challenges and overcome the current fragmentation? One of the conclusions is the suggestion to consider a pragmatic EU Strategy for the Neighbours of its Neighbours which addresses the needs of the broader EU neighbourhood in a more systematic and consistent manner and helps transform in the long run the arc of crisis into another ring of friends.

Border Lampedusa Gabriele Proglia, Laura Odasso, 2017-10-19 This book analyses the European border at Lampedusa as a metaphor for visible and invisible powers that impinge on relations between Europe and Africa Asia Taking an interdisciplinary approach political social cultural economic and artistic it explores the island as a place where social relations based around race gender sex age and class are being reproduced and or subverted The authors argue that Lampedusa should be understood as a synecdoche for European borders and boundaries Widening the classical definition of the term border the authors examine the different meanings assigned to the term by migrants the local population seafarers and associative actors based on their subjective and embodied experiences They reveal how migration policies international relations with African Middle Eastern and Asian countries and the perpetuation of new forms of colonization and imperialism entail heavy consequences for the European Union This work will appeal to a wide readership from scholars of migration anthropology and sociology to students of political science Italian African and cultural studies *Blood and Progress* Nick Hewlett, 2016-08-30 Every day we hear about war state repression uprisings suicide bombing gang warfare slavery and domestic abuse Is it realistic to think of a future that is free from violence And can we justify the paradox of violence in pursuit of a peaceful future Nick Hewlett places the goal of a wholly peaceful society centre stage to give us a new understanding of violence in pursuit of peace Hewlett brings together the modern history of capitalist violence and communist violence political thought on insurgent violence a passionate defence of the idea of peace and non violence and the political economy of contemporary capitalism He explores topics ranging from the prospects for peace and non violence to Fidel Castro's ethics of guerrilla warfare and from the brutality of US foreign policy and the violence of historical communism to the meaning of terrorism today Strongly argued and supported by a wealth of facts *Blood and Progress* is suffused with the profound belief that we need to go beyond the inequalities and injustices of the current age and towards societies characterised by equality deep democracy and peace **Introduction à la géopolitique - 2e éd.** Amaël

Véritable science humaine la géopolitique a parfois été instrumentalisée par certains régimes dans la première moitié du XX^e siècle ce qui a profondément marqué les approches et conduit prendre certaines distances. Depuis les années 1970-1980 la géopolitique a connu de profonds renouvellements qui ont conduit multiplier les champs d'étude et utiliser de nouveaux outils d'analyse empruntés aux autres sciences humaines pour mieux comprendre les situations de rivalités et les stratégies des différents acteurs toutes les échelles. Cet ouvrage cherche à dresser en une centaine de fiches un panorama de la géopolitique aujourd'hui représentatif et le plus accessible possible à un large lectorat étudiants ou grand public. Pour ce faire chaque fiche est organisée autour des éléments clés à retenir afin de comprendre les grandes logiques et les principales oppositions. L'œuvre suivie de focus qui permettent d'approfondir certains aspects ou acteurs. Ces focus peuvent la fois servir d'angles d'entrée dans le thème ou de compléments pour illustrer des dissertations ou des études de cas plus poussées. Chaque fiche se conclut par un schéma bilan qui permet de mettre en exergue les enjeux indispensables pour comprendre les situations différentes échelles. Un va-et-vient entre les fiches est tout fait possible et facilité par l'organisation thématique de l'ouvrage. **0.03%!** Pierre Micheletti, 2021-07-19 0.03 % Pour une transformation du mouvement humanitaire international English version This book examines the humanitarian movement its history its actors the difficulties that are part and parcel of its deployment in complex environments as well as the international relations in which it is the David alongside the Goliath states facing it.
