Rising Star, Setting Sun John T Shaw, 2018-05-01 After winning the presidency by a razor thin victory on November 8 1960 over Richard Nixon Dwight D Eisenhower s former vice president John F Kennedy became the thirty fifth president of the United States But beneath the stately veneers of both Ike and JFK there was a complex and consequential rivalry In *Rising Star Setting Sun* John T Shaw focuses on the intense ten week transition between JFK s electoral victory and his inauguration on January 20 1961 In just over two months America would transition into a new age and nowhere was it more marked than in the generational and personal difference between these two men and their dueling visions for the country they led The former general espoused frugality prudence and stewardship The young political wunderkid embodied dramatic themes and sweeping social change Extensively researched and eloquently written Shaw paints a vivid picture of what Time called a turning point in the twentieth century as Americans today find themselves poised on the cusp of another watershed moment in our nation s history

Music, Brain, and Rehabilitation: Emerging Therapeutic Applications and Potential Neural Mechanisms Teppo Särkämö, Eckart Altenmüller, Antoni Rodríguez-Fornells, Isabelle Peretz, 2016-08-05 Music is an important source of enjoyment learning and well being in life as well as a rich powerful and versatile stimulus for the brain With the advance of modern neuroimaging techniques during the past decades we are now beginning to understand better what goes on in the healthy brain when we hear play think and feel music and how the structure and function of the brain can change as a result of musical training and expertise For more than a century music has also been studied in the field of neurology where the focus has mostly been on musical deficits and symptoms caused by neurological illness e g amusia musicogenic epilepsy or on occupational diseases of professional musicians e g focal dystonia hearing loss Recently however there has been increasing interest and progress also in adopting music as a therapeutic tool in neurological rehabilitation and many novel music based rehabilitation methods have been developed to facilitate motor cognitive emotional and social functioning of infants children and adults suffering from a debilitating neurological illness or disorder Traditionally the fields of music neuroscience and music therapy have progressed rather independently but they are now beginning to integrate and merge in clinical neurology providing novel and important information about how music is processed in the damaged or abnormal brain how structural and functional recovery of the brain can be enhanced by music based rehabilitation methods

and what neural mechanisms underlie the therapeutic effects of music Ideally this information can be used to better understand how and why music works in rehabilitation and to develop more effective music based applications that can be targeted and tailored towards individual rehabilitation needs The aim of this Research Topic is to bring together research across multiple disciplines with a special focus on music brain and neurological rehabilitation We encourage researchers working in the field to submit a paper presenting either original empirical research novel theoretical or conceptual perspectives a review or methodological advances related to following two core topics 1 how are musical skills and attributes e g perceiving music experiencing music emotionally playing or singing affected by a developmental or acquired neurological illness or disorder for example stroke aphasia brain injury Alzheimer s disease Parkinson s disease autism ADHD dyslexia focal dystonia or tinnitus and 2 what is the applicability effectiveness and mechanisms of music based rehabilitation methods for persons with a neurological illness or disorder Research methodology can include behavioural physiological and or neuroimaging techniques and studies can be either clinical group studies or case studies studies of healthy subjects are applicable only if their findings have clear clinical implications
