

Rising 9th Graders'

Summer MIST Program

(Mathematics Independent Skills Training)

The purpose of this summer math packet is to help you maintain the skills you mastered in elementary and middle school, especially those that will be particularly important to meet the 9th grade Georgia Performance Standards (GPS) and success in high school mathematics. The MIST will also serve as a self-diagnostic tool for ALANHS students to develop their own individualized "Strength Training" program.

The Summer MIST Packet is divided into two sections:

Section 1 - Basic Skills and Process Problems (# 1-16)

Throughout this section, you may find it useful to use tools such as a protractor, straight edge, calculator, etc. (scientific calculators are recommended and used in class). In addition, the corresponding standard and online references are provided for extra practice to expand your knowledge or to strengthen any particular skill, if necessary.

Section 2 – Characteristics of Functions (# 17-35)

The first unit in 9th Grade Math 1 (MM1) or Accelerated Math 1 (MA1) will build on your previous knowledge of functions introduced in the 8th-grade curriculum. "Characteristics of Functions" set the foundation to explore the nature of independent and dependent relationships. *This section contains practice questions from 8th and 9th grade curriculum to review and complete.*

This packet is due during the first week of school. You should show your work and/or explain your answers for all problems; some problems specifically instruct you to do so; no credit will be given for those problems if work is not shown. Please follow directions.
