Sandf Nursing Training:

Journal of the Royal Naval Medical Service ,1995 **Surviving on the Move** Jonathan Crush,Bruce Frayne,2010 Since the collapse of apartheid there have been major increases in migration flows within to and from the Southern African region Cross border movements are at an all time high across the region and internal migration is at record levels The implications of greater mobility for areas of origin and destination have not been systematically explored Migration is most often seen as a negative phenomenon a result of increased poverty and the failure of development More recently the positive relationship between migration and development has been emphasised by agencies such as the Global Commission on International Migration the Global Forum on Migration and Development the United Nations Development Programme and the African Union The chapters in this publication are all based on primary research and examine various facets of the relationship between migration poverty and development including issues that are often ignored in the migration development debate like migration and food security and migration and vulnerability to HIV The book argues that the development and poverty reduction potential of migration is being hindered by national policies that fail to recognise and build on the positive aspects and potential of migration As a result as these studies show migrants are often pushed to the margins where they are forced to survive on the move Their treatment violates labour laws and basic human rights and compromises the potential of migration as a means to create sustainable livelihoods reduce poverty and food insecurity mitigate the brain drain and promote the productive use of remittances This book shows that migrant lives and livelihoods should be at the centre of international and African debates about migration poverty and development The A to Z of Careers in South Africa ,1998

Africa as well as for tourists needing information **South African Labour-business Monitor** ,1997 **Fighting the People's War** Jonathan Fennell,2019-01-24 Fighting the People s War is an unprecedented panoramic history of the citizen armies of the United Kingdom Australia Canada India New Zealand and South Africa the core of the British and Commonwealth armies in the Second World War Drawing on new sources to reveal the true wartime experience of the ordinary rank and file Jonathan Fennell fundamentally challenges our understanding of the War and of the relationship between conflict and socio political change He uncovers how fractures on the home front had profound implications for the performance of the British and Commonwealth armies and he traces how soldiers political beliefs many of which emerged as a consequence of their combat experience proved instrumental to the socio political changes of the postwar era Fighting the People s War transforms our understanding of how the great battles were won and lost as well as how the postwar societies were forged **An Ambulance of the Wrong Colour** Laurel Baldwin-Ragaven,Leslie London,Jeanelle De Gruchy,1999 A study on the ethical problems afflicting the health sector this work catalogues through numerous cases the misconduct of health professionals with regard to civilians prisoners and military personnel documents the misuse of scientific research health professional and training institutions and statutory councils for apartheid purposes observes the failings of a profession trying to provide health care in the absence of a culture of human rights and identifies ways in which human rights and ethical dilemmas recur in the current context of democratic transformation *HIV/AIDS and the Law* ,1997

The Changing Face of Land and Conservation in Post-colonial Africa George Barrett,Shirley Brooks,Jenny Josefsson,Nqobile Zulu,2016-03-22 The year 2013 marked the 100th anniversary of the 1913 Land Act in South Africa which legalised the violent dispossession and alienation of the African majority from the land It is common cause that the alienation of land for conservation purposes introduced to Africa under colonial rule has continued more or less uninterrupted until today However while nature conservation practices inevitably raise challenging questions relating to land and land use there has thus far been little concentrated effort to bring together scholars working on the land question particularly around issues of land tenure with those whose work focuses on questions of nature construction and the social impacts of conservation in an African context Compiled from research presented at a ground breaking interdisciplinary conference held at Rhodes University in Grahamstown South Africa in 2012 the chapters in this book made their first appearance in a special issue of the Journal of Contemporary African Studies JCAS in July 2013 The book brings critical interdisciplinary analyses of the complex interrelations between contemporary neoliberal conservation practices in post colonial Africa into conversation with the well trodden territory of land use and contested land issues on the continent Anchored by an intellectual curiosity about the extent to which past practices continue into the present and with what consequences the book provides fresh insights into the complex relationship between land and conservation in contemporary Africa Military history journal ,1995
