North West University Application Form For 2016

Morten Bøsterud, Jan C.M. Venter

North West University Application Form For 2016:

A Treatise on Christian Banking Morten Bosterud, 2022-08-01 From a moral perspective all banking practice and theory can be seen as value driven Therefore there will be no such thing as value neutral banking activities and the application of Christian ethical and pastoral principles adds insights to the field of banking for all its involved stakeholders This book contributes to the specific scientific discourse of practical theology as this typically appears within the subfields of ethics and pastoral studies Christian ethics and pastoral principles as applied in banking make up a largely neglected area in the wider academic discourse found within practical theology and the research presented in this book contributes new knowledge to the field with particular emphasis on banking practice It is expected that the theories presented herein will be of interest for other scholars not only within the realm of practical theology but also in a cross domain perspective where scholars in a broad field of disciplines may find the research and academic positions of interest Such academic fields would include economics finance business administration sociology history anthropology and perhaps more This expectation may not least be derived from the increasing focus on Corporate Social Responsibility CSR as this has emerged over the last decades within the wider business realm in general whence the world of banking has followed suit Alongside this development an emergence of Islamic banking has been seen which has showed substantial growth and success *Pacifism and Pentecostals in South Africa* Marius Nel, 2018-06-27 Most of the early twentieth century Pentecostal denominations were peace churches that encouraged a stance of conscientious objection However since the Second World War Pentecostals have largely abandoned their pacifist viewpoint as they have taken on a more literal Biblical hermeneutic from their interaction with Evangelical denominations This book traces the history of nonviolence in Pentecostalism and suggests that a new hermeneutic of the Bible is needed by today's Pentecostals in order for them to rediscover their pacifist roots and effect positive social change The book focuses on how Pentecostalism has manifested in South Africa during the twentieth century Much of the available academic literature on hermeneutics and exegesis in the field of Pentecostal Studies is of an American or British European origin This book redresses this imbalance by exploring how the Bible has been used amongst African Pentecostals to teach on the apparent paradox of a simultaneously wrathful and loving God It then goes on to suggest that how the Bible is read directly affects how Pentecostals view their role as potential reformers of society So it must be engaged seriously and thoughtfully By bringing Pentecostalism's function in South African society to the fore this book adds a fresh perspective on the issue of pacifism in world Christianity As such it will be of great use to scholars of Pentecostal Studies Theology and Religion and Violence as well as those working in African Studies [Towards a Transformative Pedagogy for Early Childhood Care and Education](#) Naseema Shaik, Trevor Moodley, 2024-07-12 This book addresses the priorities and possibilities towards developing transformative pedagogies in post apartheid South Africa To this end the book has assembled a group of researchers who interrogated and engaged with a variety of dimensions that warrant pedagogical

change in early childhood in South Africa The book focuses on young children practitioners and leaders with intersecting discussions about envisaged systemic changes to promote transformative pedagogies The collection highlights the importance of beliefs ways of knowing and ways of being as framings that impact on pedagogical approaches The book discusses the challenges that interplay between priorities and possibilities that practitioners face in a diverse and multi cultural society like South Africa The work uses a variety of examples to show priorities One example is about how practitioners have limited knowledge about how music as a culturally responsive tool can be used to transform pedagogy in Early Childhood Care and Education The book opens up dimensions as priorities that lead to thinking about possibilities that recast adults and young children as transformative agents in a dimension for transformative pedagogies Sustainability of Southern African Ecosystems under Global Change Graham P. von Maltitz, Guy F. Midgley, Jennifer Veitch, Christian Brümmer, Reimund P. Rötter, Finn A. Viehberg, Maik Veste, 2024-01-05 This open access book about the sustainability of marine and terrestrial ecosystems in southern Africa provides a synthesis of the research program Science Partnerships for the Adaptation to Complex Earth System Processes SPACES II 2018 2022 It addresses the scientific social and economic issues related to climate change its potential impacts on the various ecosystems adaptations and management interventions for enhancing systems resilience in Southern Africa It is written by numerous scientists from African states and Germany and summarizes the latest research findings which are of great relevance for a better understanding of climate change impacts adaptations and vulnerabilities as well as for developing management options and policy options to reduce the associated risks This is crucial considering that the projected African population increase is exceptional Furthermore climate change is assumed to hit southern Africa extremely hard with a significant increase in extreme events and the frequency of severe droughts heat waves and flooding Southern Africa hosts a high variety of ecosystems which belongs to important biodiversity hotspots for unique flora and fauna The surrounding oceans form in turn a bottle neck within the ocean s global thermohaline circulation act as a still poorly understood carbon sink and source and play an important role for fisheries as they are highly productive Considering these important aspects the book is an important interdisciplinary contribution to the scientific literature and will find a wide readership The book is aimed at students teachers and scientists in the fields of terrestrial and marine ecology environmental nature and landscape planning agriculture environmental and resource management biodiversity and nature conservation as well as scientists and representatives in specialised authorities and associations nature conservationists and policy makers of related disciplines **Christian ethics and political economy** Morten Bøsterud, Jan C.M. Venter, 2020-12-31 The value free and relativistic human and scientific discourses have led to an era of ideology From fascism at the dawn of the century through liberalism and the associated phenomenon of unfettered statism to the current disillusionment of postmodernism and relativism with endeavours towards new mercantilism All have maintained poverty inequality and created scepticism amongst both lay persons and academics Above all else a renewed yearning for

moral and ethical direction in political and economic conduct has been created This book provides a Christian ethical reflection on political economic conduct in South Africa as an alternative to current modernistic ideas This book aims to produce new Christian ethical insight into the value of new liberal perspectives on the enhancement of the South African political economy New Christian ethical insight will be gained through new perspectives on the South African political economy
