, 1996 **Debussy and the Veil of Tonality** Mark DeVoto, 2004 This new book on Debussy's music comprises analytical studies of individual works not widely examined previously including the Fantaisie for piano and orchestra La demoiselle lue Nuages and Gígues. A discussion of the tonal structure of the first movement of La mer finds new relevance in the overused term symphonic in relation to Debussy's position in the history of French orchestral music. An extensive essay documents Debussy's aural images in his propensity for recycling his own musical ideas and quoting the music of other composers. A final lighthearted chapter Debussy and Ravel How to Tell Them Apart systematically addresses this century-old critics' conundrum. **The Road of Danger, Guilt, and Shame** Carol Efrati, 2002 The commentaries of other critics are taken into account but the author also presents her own explications based on her close reading and wide knowledge of literature. **BOOK JACKET Debussy's Resonance** François de Médicis, Steven Huebner, 2018 Some of Debussy's most beloved pieces as well as lesser known ones from his early years set in a rich cultural context by leading experts from the English and French speaking worlds. The music of Claude Debussy has always been widely beloved by listeners and performers alike more perhaps than that of any of the other pioneers of musical modernism. However rich in itself his creative output also participated and continues to participate in a network of cultural connections the scope and meaning of which can only be gleaned through multiple interpretive frameworks. Debussy's Resonance offers twenty new studies by some of the most active and respected English and French language scholars of French music. The book treats a large swath of the composer's music from previously unexplored modalities of his early years to late pieces such as the ballet Jeux and the Douze tudes and takes into consideration the numerous contexts that helped shape the works and the different ways that musicologists and critics have explained them. **CONTRIBUTORS** Katherine Bergeron Matthew Brown David J.
