Challenging Territoriality in Human Rights Law Wouter Vandenhoe,2015-06-19 Human rights have traditionally been framed in a vertical perspective with the duties of States confined to their own citizens or residents Interpretations of international human rights treaties tend either to ignore or downplay obligations beyond this territorial space This edited volume challenges the territorial bias of mainstream human rights law It argues that with increased globalisation and the impact of international corporations organisations and non State actors human rights law will become less relevant if it fails to adapt to changing realities in which States are no longer the only leading actor Bringing together leading scholars in the field the book explores potential applications of international human rights law in a multi duty bearer setting The first part of the book examines the current state of the human rights obligations of foreign States corporations and international financial institutions looking in particular at the ways in which they address questions of attribution and distribution of obligations and responsibility The second part is geared towards the identification of common principles that may underpin a human rights legal regime that incorporates obligations of foreign States as well as of non State actors As a marker of important progress in understanding what lies ahead for integrating foreign States and non State actors in the human rights dutybearer regime this book will be of great interest to scholars and practitioners of international human rights law public international law and

EU Foreign Policy, Transitional Justice and Mediation Laura Davis, 2014-07-11 This book analyses how the European Union translates its principles of peace and justice into policy and puts them into practice particularly in societies in or emerging from violent conflict. The European Union treaty states that in its relations with the wider world the EU is to promote peace security the protection of human rights and the strict observance and the development of international law. The EU is active in peace processes around the world yet its role in international peace mediation is largely ignored. This book offers the first scholarly analysis of how the EU engages in peace processes and justice for human rights violations focussing on the point where mediation and transitional justice intersect. Drawing on extensive fieldwork the book includes case studies of how the EU sought to promote peace and justice in the Democratic Republic of Congo DRC how it supports international justice through the International Criminal Court and a model of the EU as a mediator. These provide an evidence base for policy makers and practitioners as well as strong empirical contributions to theory. The book addresses whether and how the EU pursues its principles of both peace and justice in conflict zones where in practice these principles may be in conflict and the implications of these findings for understanding EU foreign policy and the EU as a security actor. This book will be of much interest to students of EU foreign policy transitional justice peace and conflict studies and security studies.

HRDD has emerged as a dominant frame through which to conceptualise and operationalise responsible business conduct with respect to workers rights in global supply chains Legislation mandating HRDD is now found in several European countries and across various national regulatory agendas Many scholars practitioners and activists are actively calling for further legalisation believing that this will broaden respect for human rights Yet to date there has been little sustained scholarly analysis from a labour rights perspective Observing that HRDD as originally articulated in the UN Guiding Principles on Business and Human Rights is open to multiple interpretations this book examines global debates on the role and status of the concept It also considers the implications of HRDD s ascension for transnational labour law as a distinct field of law scholarship and activism Combining insights from transnational governance and business regulation with empirical analysis this book argues that HRDD is not being institutionalised at either the global or national level in a way that renders it a transformative or even robust mechanism of transnational labour law It also draws attention to the important but largely overlooked ways in which the rise of HRDD is leading to subtle shifts in the configuration of actors and institutions in labour governance **The Future of the Philosophy of Economics** Constanze Binder,Conrad Heilmann,Jack

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts.

The Secret History is a exceptional and suspenseful novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
